leral Grand Jury Holds Michigan Politicians

SULT OF ELECTION

Senator From Michigan and 34 Other Men Held on Charges of Election Frauds and Conspiracy

ID RAPIDS, Mich, Nov. aman H. Newberry, Unit- s senator from Michigan, of his campaign lieuten- 120 lesser political lights state, were indicted by a grand jury here today on rge of election frauds, cor- tion, conspiracy and misuse of mails. Two blanket indict- nts were returned dealing with primary and election cam- gn of 1918 in which Henry d was Senator Newberry's ef opponent.

The first indictment charged t both federal and state laws re violated in that sums far in ess of legitimate expenses re used in the campaigns. The or indictment cited the affi- vit which Senator Newberry d while serving at the Brook- h yard and in which he ore that no campaign money d been spent by him or with his owledge. This affidavit the in- tment charged was a part of a eral conspiracy to aid the sen- r to obtain office illegally and ai m also in concealing vio- le election statutes.

om were six counts in the Poult ictment. The first four ngs ated to charges of excess n expenditures. The fifth Vell conspiracy to violate the Good corrupt practices act of All 1918, which penalizes of money to voters. The Fenci nt to which Frank C. ence pecial assistant to the at- acres eneral attached especial f sol ice, alleged that the re used to "defraud all farm- le of the state of Mich- This f:

ith count charged that were all voters of the rauded, but that honest contributors were also that they were mislead eving that the legal limi- of expenditures had not been ceeded. It also charged that re than $100,000 of the con- ated funds were converted to own use of some of the cam- ign managers. The sixth count so contained a clause charging at James Helm, former state iry and food commissioner and ponent of Henry Ford in the mocratic primary received from e Newberry organization funds or his compensation and ex- nses in seeking nomination to id office of senator," at the pri- ary, the alleged purpose being to d the Newberry cause by pre- nting Democratic voters from hing up with Ford in the Re- ublican primary. In a list of 38 vert acts" attached to the in- ctments was an accusation that elm's "compensation for his ndidacy was $50 a week.

These 38 alleged overt acts ere charged against fourteen en and carried accusations of aving given rewards ranging om promises of "a good job" to ayments of sums varying from 5 to $275 as returns for support d activity in the Newberry cam- aign. One country editor is al- ged to have received a ton of rint paper.

The extreme penalty which may e imposed under the indictments a fine of $10,000 and two years nprisonment.

The identity of only the chief gures in the case were revealed court today. On instructions om Judge Clarence W. Sessions f the United States district court he names of the others were im- ounded, to be released only when eir owners have been served ith warrants based upon the in- ictments.

The following names were an- ounced:

Truman H. Newberry, United tates senator.

John S. Newberry, Detroit, the enator's brother.

Paul H. King, Detroit.

Allan A. Templeton, Detroit.

Henry O. Turner, Detroit.

Mark T. McKee, Detroit.

Harry A. Hopkins, Detroit.

Charles A. Floyd, Detroit, ormerly of Grand Rapids.

Frederick C. Smith, Detroit.

Milton Oakman, Detroit.

Jud Yelland, Escanaba, Mich.

Frank McKay, Grand Rapids,

James B. Bradley, Eaton Rap- ls, Mich.

Gladstone V. Beattie, Paw Paw, lich.

Washington, Nov. 29.—Senator Newberry had not returned to Washington tonight, but it was believed by other senators that the action of the Michigan grand jury in his case would not change the status of the petition that he be unseated filed by Henry Ford, pending before the senate committee on privileges and elections. The outcome of the proceedings in Michigan would be awaited, it was said, as the senator hardly would be called upon by the committee to defend his title to his seat in both places at the same time.

Government officials asserted that the testimony presented to the grand jury had revealed a political scandal that in many respects was without parallel in American annals. They said it extended from the most populous wards of Detroit to the Indian

STEAMERS COLLIDE

Adriatic Strikes St. Michael in New York Harbor

Stern of Latter Steamship is Damaged But She Clears for Maccio Later in Day.

NEW YORK, Nov. 29.—The Steamship Adriatic which sailed late today for Cherbourg and Southhampton with a long list of distinguished passengers collided with the Steamship St. Michael off the Statue of Liberty while moving down the harbor. The St. Michael's stern was badly damaged under the water line and the ship is leaking but apparently in no serious danger.

The British Freight Steamship in collision with the Adriatic cleared today with a general cargo for Maceio and Pernambuco. Her displacement is 3,760 gross tons.

SWITCHMEN STRIKE

Men Are Out in Kansas City Railroad Yards

ROADS ASK PROTECTION

Railroad Heads Appeal for Federal Troops to Insure Operation of Trains During Strike

BULLETIN

KANSAS CITY, Nov. 29.—Demand that the Brotherhood of Railway Trainmen fulfill contract obligations and supply men to take the places of approximately 1500 striking switchmen, requests that federal troops be sent here in connection with the strike; and the calling of a meeting of strikers for tomorrow were late night developments of a sudden strike of railway switchmen here today.

BULLETIN

KANSAS CITY, Mo., Nov. 29.—Heads of railroads centering in Kansas City tonight addressed telegrams to the governors of Missouri and Kansas asking them to appeal to the federal government to supply troops to insure operation of trains during the strike of railway switchmen here.

Railroad officials tonight said efforts would be made with such switchmen as remain loyal, and by the transfer of men from other departments to keep trains moving. Freight trains made up this afternoon were leaving the terminals here tonight. About fifteen hundred men are affected by the strike which was called late today and which has been termed by national union officials as unauthorized.

KANSAS CITY, Mo., Nov. 29.—Measures to meet the strike of fifteen hundred switchmen, in the Kansas City railroad yards were considered tonight by heads of the railroads entering here meeting with W. M. Corbett, president of the Kansas City Terminal Railway and local representative of the United States Railroad Administration. Results of the conference have not been announced. The full effect of the strike will not be known until 8 o'clock tomorrow morning, when the day crews are scheduled to go to work Mr. Corbett said. He added that switchmen of the Chicago, Rock Island and Pacific and the Chicago, Burlington & Quincy, who are members of the Switchmen's Union are not leaving their places, but members of the Brotherhood of Railway Trainmen, employed by terminal roads and the Terminal company are going on strike.

Call Mass Meeting.

Kansas City, Nov. 29.—A mass meeting of citizens to consider steps to be taken because of the coal shortage, made more critical by a railroad switchmen's strike here late today was called for tomorrow morning by the conference of mayors of Kansas City, Mo., and Kansas City, Kans., together with representative business and industrial men of the city.

It developed at the conference that only ten car loads of coal have been placed on the unloading tracks and the switchmen's strike makes it doubtful if several hundred carloads in reserve here can be shifted so as to be available.

Colder weather is predicted for tonight in this section and it was believed much suffering would follow.

Makes Situation More Acute

Kansas City, Mo., Nov. 29.—Local railroad yardmen and trainmen began to walk out at 4 o'clock this afternoon.

Reports to the office of the Kansas City terminal company shortly after 4 o'clock said twenty Santa Fe crews had quit work; twenty two crews of St. Louis & San Francisco railroad yardmen and trainmen and forty of the terminal company's men. It was said the men who walked out composed a late shift that had gone to work about the middle of the afternoon.

The strike of local railroad yardmen makes more acute the fuel situation here and this was the subject of discussion at a conference of representative men of industry and business today. Issuance of an order closing all business houses, industrial plants and buildings in both Kansas Cities for three days next week was considered but it was decided to hold another mass meeting of business men Sunday morning and take action on the order then.

STORM TAKES TOLL

Many Lives Lost in Wind Storm Saturday

SCORES ARE INJURED

Chicago and Vicinity, Detroit and Indiana Cities Are in Path of Yesterday's Destructive Gale

CHICAGO, Nov. 29.—At least eight persons were killed today and scores injured and heavy property damage by wind storm, accompanied by sleet, snow and rain which originated in northwest Arkansas and swept across the central valleys and southern lake region.

Communication was nearly paralyzed in Northern Arkansas and some parts of Missouri and Kansas as a result of sleet and wind while the gale that reached a velocity of 80 miles an hour at Detroit tore down wires, uprooted trees, swept away outbuildings and unroofed houses in most of the central states.

Five persons were killed in southern Michigan.

Two men lost their lives in Indianapolis when one was electrocuted by a broken power wire and another blown from a ladder.

A woman was struck dead by a cornice blown from a building in Muncie, Ind.

Property damage probably ran into hundreds of thousands of dollars and reports from many localities, especially the rural communities of Missouri, Illinois, Indiana and Michigan were missing.

The gale in the lower lake region was the severest in many years. The wind's velocity in northern Indiana reached 55 miles an hour and in Chicago 50 miles.

A tower was blown from its moorings at Pesotum, Ill., and struck a coach of an Illinois Central train. A report that six passengers had been injured was not confirmed by officials.

The storm which was moving north by northeast centered over the lower Lake Superior region tonight.

Warmer temperatures following the cold wave that gripped the Rocky Mountain states for two days and spread in less severe form to the central and northwestern states, preceded the windstorm, but lower temperature was expected to follow in the central and middle western states. The mercury dropped 33 degrees in Chicago today.

Winter weather still prevailed today in Missouri, Kansas, Nebraska, Oklahoma, Arkansas and Texas and the fuel shortage due to the miners' strike was felt more noticeably, especially in the middle, central, south and northwestern states.

Five Killed at Detroit.

Detroit, Mich., Nov. 29.—Five persons were killed here and a score of others injured in a storm that swept across Southern Michigan tonight. The wind, accompanied by a driving rain reached a velocity of 80 miles an hour here, the weather bureau reported. Property damage, it is estimated will amount to thousands of dollars. Street car service and wire communication were demoralized. Severe damage is believed to have been suffered to wire service in othr parts of the state.

Two Dead at Indianapolis.

Indianapolis, Ind., Nov. 29.—Two men dead in Indianapolis, one woman killed at Muncie and thousands of dollars damage to property, was the toll of a wind storm that swept the state of Indiana today. Scores of men, women and children in Indianapolis were injured.

Those killed in Indianapolis were: Everett Morris, 34 years old, electrocuted by a fallen wire, and George Mock, 42 years old, who was blown from a ladder.

Mrs. Eva Conner, 45 years old was killed when the cornice was blown from a business building in Muncie.

Reports from Fort Wayne, Anderson, South Bend and several other cities in the northern part of the state told of buildings being unroofed, trees uprooted, plate glass windows smashed and a general demoralization of street car, telegraph and telephone service. In Indianapolis one church steeple was blown down, many large signs torn from their fastenings and several large show windows were broken. Several women and children were cut by the falling glass and many of them were knocked down or buffeted against the walls of buildings by the wind. The wind reached a velocity of fifty six miles an hour.

Terrific Wind and Rainstorm.

Toledo, O., A terrific wind and rainstorm, during which the wind velocity was said to have reached 78 miles an hour, swept northwestern Ohio late today levelling telephone and telegraph wires and creating property damage estimated at $100,000. Telegraph companies report their wires down in all directions. The storm area extends as far east as Cleveland and virtually to Chicago, according to railroad telephone information.

RECOGNIZES UNION

St. Louis, Nov. 29.—The local office of an insurance company formally has recognized its agent's union it was announced here.

Congress Convenes Tomorrow

WASHINGTON, Nov. 29.—Preparations for convening the sixty sixth congress in its first regular session next Monday virtually were complete tonight with most leaders of both parties already here.

Senate and house plan to adjourn almost immediately after notifying President Wilson formally of their resassemblage and receiving the usual flood of appropriation departmental estimates and reports.

Mr. Wilson's message in which interest is centered on expected discussion of the German peace treaty and the industrial situation is scheduled to be read to each body on Tuesday. Because of the president's illness the usual joint session to hear from him in person will not be held.

The senate is expected to begin work on the Cummins railroad bill and the house of miscellaneous business when the session gets fully started.

While the railroad legislation is before the senate negotiations towards disposal of the German peace treaty are expected to reach a hed but with leaders on both sides doubtful officials action before the holidays. The program of legislation before the Christmas vacation, expected from about December 20th to January 5th, calls tentatively for passage by the senate of the railroad bill or a temporary emergency resolution and final action on the oil, coal, gas and phosphate land leasing bill, the Edge foreign financing corporation bill —both of which are in conference—and a few minor measures.

Representative Mondell said in his statement that lack of economy "in private and public life is at the bottom of many of our present day difficulties" and that the government should "set an example of the curtailment of doubtful, unnecessary or useless expenditure.

"Rigid economy", that statement added, "constructive legislation along sane and progressive lines; the maintenance of conditions of orderly prosperity and sound and traditional Americanism—those should be and undoubtedly will be the aims and purposes of the congress."

WARNS EMPLOYERS

Fuel Administrator Garfield Issues Statement

Will Oppose Effort to Take Advantage of Labor Unions at This Time

WASHINGTON, Nov. 29.—Any effort on the part of employers to take advantage of the present situation to destroy trade unions "will be resented by the public and opposed by me," Fuel Administrator Garfield in a statement tonight.

"Report has come to me that the present crisis in the coal industry will be used to break down the labor unions," Dr. Garfield said. "I wish to say that I am as much opposed to attempts to destroy the principle of collective bargaining and the union of workingmen as I am to the effort of labor leaders to keep labor satisfied by a constant boosting of wages, regardless of the public interest or to the effort of leaders in the industrial world to boost profits unduly to the heart of the public.

"Any attempt to complicate the issue at this time by seeking to destroy the union of the mine workers or the principle of collective bargaining will be resented by the public and opposed by me."

SEEK S. D. DELEGATIONS

Possible Presidential Choices to Be Represented at Convention

Pierre, S. D., Nov. 29.—Representatives of possible Republican and Democrat presidential choices will begin arriving here tomorrow to launch their fight before the state proposal meetings here Tuesday in an effort to obtain the backing of the South Dakota delegations at the national convention next year. At the Republican convention General Leonard Wood will be represented by J. T. King of Massachusetts, Governor Frank O. Lowden of Illinois, by Fred Sterling, treasurer of that state, and Senator Poindexter will be here in person. Attorney General A. Mitchell Palmer, who, it is said, planned to be here to push his interests at the Democrat convention will be unable to be present because of business matters at Washington. Former United States senator James Hamilton Lewis of Illinois will represent him.

WANT PRICE REVISION

Would Compel Blair to Revise Text Book Prices.

Springfield, Ill., Nov. 28.—In an effort to compel State Superintendent of Public Instruction Francis G. Blair to revise the list of prices on school textbooks the Albright and Stehman Publishing Company of Chicago today filed a petition with the supreme court asking permission to obtain a writ of mandamus ordering the state superintendent to fix new prices.

Springfield, Ill., Nov. 29.—The petition alleges that due to the increased cost of materials and labor the price list now in effect is inadequate. Superintendent Blair refused to revise the list contending that under the present law the lists can not be changed until the expiration of five years.

WILL MEET IN BLOOMINGTON

Quincy, Ill., Nov. 29.—Bloomington was chosen for the 1920 meeting of the Illinois Greeters of America in state convention here tonight. The hotel managers, clerks and office employes elected officers as follows:

Charles Cravens, of Springfield, president; J. C. Bailey, Champaign, vice president and D. W. Clerk, Lincoln, secretary-treasurer.

BROWNED WHILE BATHING

Baltimore, Md., Nov. 29.—Fannie and Sarah Beitler, aged respectively 14 and 10 years were drowned tonight while taking a bath in their home here. When they did not respond to calls their mother burst in the door of the bath room and found the children lying face downward in the bath tub. Dr. Herman Seidel, who tried to resuscitate them, said he believed they fainted from inhaling fumes from a gas heater in the room and drowned.

PROGRESS CONTINUES

Wilson's Health Gradually Improving

President Expects to Send His Message to Congress Next Tuesday

WASHINGTON, Nov. 29—Despite inclement weather today, President Wilson spent an hour on the mesage gor two weeks. The house and after the regular weekly visit of Dr. Francis X. Dercum, of Philadelphia, his physicians reported continued progress in his condition.

Mr. Wilson will send his message to congress next Tuesday, it was said today, but no information was available as to its contents. The president was expected to express his views on the peace treaty situation and also to discuss a wide range of domestic problems, including the industrial situation.

The president has been working on the message for two weks. The fatigue this has entailed was thought to have prevented him from seeing Senator Hitchcock, Democratic leader in the treaty fight tonight on his return to the city.

NORTH DAKOTA MEASURE

Would Enable Governor to Operate Coal Mines.

Bismarck, N. D., Nov. 29.—A bill authorizing the governor to take over and operate coal mines or other public utilities in the event of a strike or a lockout, and a proposed law which would create a committee of five legislators to investigate the activities of "obstructionists" to the state administration and industrial program were among fifty-eight bills introduced in the special session of the North Dakota legislature today.

Today was the last day allowed for introduction of bills and a total of 106 measures remained to be acted upon.

The bill to investigate the activities of the "obstructionists" is in line with a recommendation made by Governor L. J. Frazer in his message to the session.

Another important measure introduced today is one empowering the state railway commissioners to investigate in cooperation with the federal commission alleged profiteering, hoarding and speculation by individuals or corporations.

TO CONSIDER APPLICATION

For Clemency for Spaniard Convicted of Murder.

Springfield, Ill., Nov. 29.—At the request of the Spanish embassy and the Spanish consul at Chicago the state board of pardons and paroles will consider an application for clemency December 5th, for Prudencia Laures, a Spanish subject, convicted in Bureau county of murder and sentenced to hang December 12. Laures was convicted of murdering another Spaniard.

Altho no application for clemency has yet been received the board will also consider such an application, if it is filed, for Arthur E. Haensel, sentenced to be hanged at Chicago, Dec. 12.

ORDERS SUGAR RELEASED

Government Agents Sieze 228,400 Pounds in St. Louis.

St. Louis, Mo., Nov. 29.—Federal Judge Faris today ordered the immediate release of 228,400 pounds of sugar which was seized by government agents last Saturday at a cold storage plant, where it was held for a wholesale fruit preserving company. The judge held that the manufacturing company had only purchased a reasonable supply for its own use.

ENTOMBED MINERS FINALLY RESCUED

Wallace, Idaho, Nov. 29.—After being in the "Gold Hunter Mine" at Mullin since Saturday morning, November 15, when they were entombed by a slide of earth, P. P. Grant and Emil Sayko, miners, were taken out alive tonight.

Grant and Sayko were weak from the effects of the long imprisonment underground but otherwise apparently were in good condition.

ORDER OUT TROOPS

Will Guard Kansas Coal Fields Next Week

STATE AND FEDERAL

Eighteen Hundred Soldiers Will be on Duty in Connection With Plans to Reopen Kansas Mines

BULLETIN

TOPEKA, Kans., Nov. 29.—Six hundred federal troops from Fort Leavenworth and from Fort Riley are now on their way to the Kansas coal fields and the fourth regiment of the Kansas National Guard has been ordered mobilized Sunday night for duty in the coal fields near Pittsburg.

Will Arrive This Morning

The federal troops will arrive in the Pittsburg mine district tomorrow morning and will begin policing the fields previous to the coming of the Kansas guardsmen who are scheduled to arrive early Monday morning. Orders for the dispatch of the regulars were issued by Maj. Gen. Leonard Wood at request of Governor Henry J. Allen, following a conference between the two in Kansas City, Missouri, last night.

The mobilization order calling the Kansas guardsmen into service affects 1,200 men, which with the six hundred regulars, will make a total force of 1,800 men available for police duty in the mine fields.

TOPEKA, Kans., Nov. 29.—Eighteen hundred state and federal troops have been ordered into the Kansas coal field in connection with the proposed plan to reopen the mines next week, under a state receivership, it became known tonight.

Six hundred of the troops will be regulars and twelve hundred guardsmen, it was said. Governor Henry J. Allen late today issued the necessary proclamation calling out the state troops.

The federal troops, 300 from Fort Riley and 300 from Fort Leavenworth are expected to arrive in Pittsburg, center of the local coal district late tonight. The state troops will begin entraining tomorrow. They will be conveyed in four special trains, it was said, which also will carry volunteers who will work in the coal fields.

In a proclamation to the officers and men of the guard, Governor Allen made it plain that the troop's movement was in no sense a strike breaking operation.

"Attention should be called to the fact that this is in no sense a movement of aggression against the striking miners," the proclamation said, "and you will caution your men to maintain toward the miners patience, firmness and forbearance. These union miners should be made to feel that this is the unavoidable action of the state which has taken over the mines for the purpose of producing coal for its people."

State officials said tonight that arrangements had been virtually completed for beginning work in the mines Monday morning.

The federal and state troops, it was announced, would be used in guarding property and the volunteer mine workers.

To Work Paroled Prisoners.

The state troops will be under the command of Col. P. M. Hoisington, who has already established his headquarters in the Pittsburg district.

"You have full authority to use all the power at your disposal to maintain the peace, preserve the safety of all citizens and protect property," the governor told Colonel Hoisington.

Tonight Governor Allen announced that twenty-three complete steam shovel crews of volunteer workers and fifteen steam shovels have been secured. Each crew is made up of skilled laborers.

The Topeka board of education today ordered public schools to remain closed indefinitely on account of the coal shortage.

Governor Allen announced that he had instructed the warden of the state penintentiary to recall 400 paroled prisoners and put them to work in the prison mines. By this action it is honed to double the production of coal there.

Coal Prospects Bright.

Topeka, Kans., Nov. 29.—With six hundred federal troops from Camp Funston and Fort Leavenworth on the way to the Kansas coal fields, the fourth Kansas infantry, national guard, mabilizing at the call of Gavernor Allen and upwards of five thousand volunteer coal miners ready to go to work in the strip mines, prospects of solving the serious fuel shortage in Kansas appeared brighter tonight.

With Full Equipment.

Junction City, Kans., Nov. 29. About three hundred troops of the seventh division stationed at Camp Funston left on a special train this afternoon taking with them full equipment including motor trucks and ambulances. Camp officials would not disclose the destination of the troops.

RECOMMENDS REPORTATION

Washington, Nov. 29.—Assistant Secretary Post of the department of labor approved today recommendations of the immigration bureau that the case of Emma Goldman be closed and that she be deported. The bureau has recommended deportation to Russia which the department is expected also to approve.

PRELIMINARY PLANS

To Renew Struggle to Ratify Peace Treaty

Hitchcock Predicts German Pact Will be Resubmitted by President Next Week.

WASHINGTON, Nov. 29.—Preliminary plans to renew the struggle for ratification of the German peace treaty were made today by Senator Hitchcock of Nebraska, leader in the senate fight.

The Democratic leader predicted that the treaty would be resubmitted by the president next week and that a compromise would be worked out which would result in ratification within a few weeks.

Senator Hitchcock notified the white house on his arrival that he would be glad to see the president during the day but no appointment was made. He indicated tonight that he expected a conference with the executive early next week.

GETTING EVIDENCE

U. S. Seeks Further Information from Mexico

DRAFT ANOTHER NOTE

Another Note to General Carranza Was Being Drafted by the State Department at Washington Saturday

BULLETIN

NOGALES, Ariz., Nov. 29.—Two hundred soldiers and several high officers of the Mexican federal army have been killed in recent ambuscade by Yaqui Indians at Cnavas, south of Tonichi, on the Yaqui river near the eastern border of Sonora, according to advices received tonight by Francis J. Dyer, American consul at Nogales, Sonora, opposite here.

WASHINGTON, Nov. 29.—The Mexican situation marked time today while the government continued to gather further information on the Jenkins case and the murder of William T. Wallace at Tampico Wednesday. The identity of the murdered man had not been established tonight. The Jenkins case and the Wallace case are being treated separately and in no way being connected at present.

The state department had already directed the American embassy in Mexico City to make inquiries of the Carranza government and forward further information of the new phase of the Jenkins case raised in the Mexican note declining to accede to the request for the release of the consular agent. In the Wallace murder case the government has about all the information considered necessary and the interval is being used in framing the details of a course of action.

A note to Carranza which some officials think will be about the last was being drafted in the state department today and so far as could be learned it had not been started on the way to Mexico City tonight. It had been drafted preliminarily and during the day had been redrafted. The department was in hourly communication with the embassy in Mexico City and when the offices closed for the day no further information had been received.

Perjury Sole Charge.

Laredo, Texas, Nov. 20.—The state of Puebla, Mexico, has no intention of trying William O. Jenkins, American consular agent, on a charge of conniving with bandits in connection with his recent abduction, Governor Cabrera of Puebla told press representatives according to a Mexico City newspaper Excelsior under date of Thursday, a copy of which was received here late today. The only charge against the consul, the governor is quoted as having said is that of perjury in judicial declarations, which is solely within the jurisdiction of the court where the offense is committed.

Warns Against Intervention.

San Francisco, Nov. 29.—Discussion of the United States government's policy toward Mexico during the past nine years and warning that armed intervention should not again be undertaken except as a last resort were features of a paper read by Professor Herbert I. Priestley, assistant professor of Mexican history at the University of California, at the convention of the Pacific Coast branch of the American Historical Association here. No sort of intervention in Mexico except the absolute taking over of the government there under a protectorate is likely to prove successful in the opinion of Professor Priestley.

INCREASE IN RESERVE

New York, Nov. 29.—The actual condition of clearing house banks and trust companies for the past five days showed that they hold $71,333,170 reserve in excess of legal requirements. This is an increase of $36,650,000 from last week.

HEATLESS STREET CARS

Rock Island, Ill., Nov. 29.—Heatless street cars were inaugurated this morning in Rock Island, Moline and East Moline, Ill., and Davenport, Ia. It is reported fuel for public utilities will last but little more than a couple of weeks longer.

STILL DEADLOCKED

Coal Situation in Illinois Remains Unchanged

WILL ATTEND MEETING

Governor Lowden Will Attend Conference of Governors in Chicago to Consider Coal Conditions

SPRINGFILD, Ill., Nov. 29.—No immediate solution of the problem of breaking the deadlock between Illinois coal miners and operators developed today. Governor Frank O. Lowden announced he would go to Chicago tomorrow to attend the conference of governors of nine coal producing states called by Governor Frederick Gardner of Missouri. The only other development of the day was the posting of notices in mines thruout the state that a fourteen per cent increase would be granted all miners who returned to work.

This action was taken in accordance with the government instructions to the operators to make every effort to re-open the mines. The operators said whistles would be blown summoning the men back to work. They said, however, they had little faith that there would be a general response. Among the miners determination was expressed to stay out until a satisfactory wage scale has been arranged.

Face Gas Famine.

Dixon, Ill., Nov. 29.—The last of the gas producing coal in this city wil go into the furnaces of the Dixon Gas plant tonight, and unless the coal is received by the first of the week consumers face a gas famine.

To Close Amusement Places.

Lincoln, Ill., Nov. 29.—Mayor W. D. Gayle of Lincoln this afternoon issued a proclamation asking the city council to close club rooms, lodges and places of amusement on account of the coal shortage. He also requested the school board to close the schools until further notice.

Offer Miners Increase.

Des Moines, Iowa, Nov. 29.—Mine operators took steps today to offer the miners the 14 per cent wage increase to which Fuel Administrator Gargeld announced the men are entitled.

For Vigorous Enforcement.

Indianapolis, Ind., Nov. 29.—Vigorous enforcement of the federal court injunction against interference with coal production, under the provisions of the Lever Act, is expected to begin Monday. Indications tonight were that operators and miners against whom evidence of violation of the injunction is secured will be treated alike and that citations against them for contempt of court will be pushed.

No Decision Reached.

Philadelphia, Nov. 29.—No decision had been reached by the bituminous coal operators of the central Pennsylvania district regarding an independent wage scale for the miners when their conference adjourned tonight. A sub-committee was appointed to draft a plan for presentation to the conference at another session to be held tomorrow or Monday.

"At 14 per cent wage increase our miners won't return to work," declared one operator. "If we pay more we lose money unless we get higher prices which the government says we can't do."

Appeal Directly to Miners.

Pittsburgh, Nov. 29.—Coal operators of the Pittsburgh district thru the Pittsburgh Coal Producers Association posted notices at all union mines today appealing directly to miners to return to work at the fourteen per cent increase recommended by Federal Fuel Administrator Garfield.

The action of the association in appealing direct to the men instead of thru the United Mine Workers, brought statements from union leaders here tonight

We used to look upon Paris as setting the pace in everything that was gay and wicked. So there is some shock to the statement that an archbishop of the French capital has issued a pastoral letter against certain fashions in women's dress and certain dances that the letter indicates have come about thru the adoption of American styles.

Gen. Leonard Wood says that the time has come to put an end to treason masquarading under the claim of free speech. All loyal Americans can take up this phrase as succinctly stating their views on the question of Americanism. If the present tendency of the public mind continues, this very question of Americanism is likely to be a slogan in the presidential campaign.

A Chicago newspaper yesterday on one page had a headline telling of the proposed conference between President Wilson and Senator Hitchcock on the peace treaty. Another headline suggested that President Wilson is partially paralyzed and that his serious condition accounts for some of the uncertainty existing in Washington. Certainly a man suffering from such an ailment would not attempt to meet a senate representative and plan a campaign for treaty ratification. And it is just as certain that it doesn't help to smooth out troubles in Washington for the newspapers to give circulation to the story of the president's serious illness.

The establishment of industrial courts has been suggested as the proper way to satisfactorily adjust the disputes between capital and labor and to provide for industrial peace in which the public is so vitally interested. The trouble is that there are some people in this country who do not believe in courts and still others who are unwilling to abide by court findings. After all, about the only hope for real and permanent settlement of such differences is a greater willingness on the part of men to be governed by the golden rule. Unfortunately such a willingness cannot result from a few hours' or weeks of consideration. It must be a matter of growth.

THE RIGHT TO FUEL.

In accordance with the order of the U. S. court there is no coal strike. This is of course speaking technically, but just now the public is not interested in the technical phase of the subject. Neither is the public interested in whether the miners or operators are in the right. What the public wants is fuel. The consuming public is entitled to this very thing.

Out of all the intricacies of the situation there should be some plain path to production, to immediate resumption of mining and certainly if this pathway is followed to the end it will lead to justice for the miners and the operators.

Aside from the distressing question of fuel supply the government is on trial and if it can be rendered impotent by a portion of a few hundred thousand men while millions feel the pinch of the short coal supply, there is certainly something wrong with our government system.

KEEP THE HOME FIRES BURNING.

"Keep the Home fires burning" is a slogan with more than one meaning. It has been adopted by philanthropic societies in a number of cities to point to the need for charitable work, to show the reason and necessity of making cheerless hearths glow.

But just now there is neither charity nor sentiment mixed up with this phrase. This question of keeping the home fires burning is one which is disturbing thousands of householders in cities all thruout the land. Generally speaking the farm resident either has his supply of coal in storage or is dependent only upon his wood pile. In the city it is a different matter. Some households have a meager supply of coal because they were careless about early buying. Others have but small storage capacity and still others have been without means save to buy from the "hand to mouth" method.

As the result of the muddled mine conditions the situation is really acute and the worst thing about it all is that no course definitely better than others has been mapped out by the government. It seems to be a bad mix up with the miners, operators and the government all sharing in the blame. Meanwhile it behooves every coal consumer to conserve and those who have a supply of coal should be ready and willing to share it with others.

YOU CAN'T DEPORT LIES.

The news stories about the immigration department of the U. S., have not been featured recently as much as some other matters but nevertheless the developments are genuinely surprising. It looks as if there were something to the charge of a certain senator that one department of the U. S. government is a hot bed of radicalism. The commissioner of immigration has, according to the record, expressed his gratification that certain orders for deportation had not been carried out.

The figures also go to show that radicals and agitators from the old world have been coming into the U. S., much more rapidly than they have been sent away, all of which gives emphasis to the recent statement of George Horace Lormier that you can depart liars, but you cannot deport lies. His argument is that the sending away of supreme radicals will not remedy all the evil that they have wrought, for the propaganda still lives and the untruths that they have told, the impossible promises made, will remain.

"The evil that men do lives after them," just as well as the good. Hence comes the necessity for greater restrictions of immigration and more safeguards to the U. S. against the insidious influence that the radicals wield thru their propaganda methods.

Rippling Rhymes

WATCH THEM

Having had a thorough whipping on the field of death and gore, we may see the Germans skipping back to the useful task and chore. Having dumped the old ambitions, having scrapped the Wilhelm dream, they get down to new conditions, and in trade they'd be supreme. While the other wrangling nations yap around and paw the air, back to old time occupations go the Germans, everywhere. With a single earnest purpose they go back to forge and loom, while our foaming windsmiths chirp us songs of anarchy and doom. If we do not quit our yipping, making smoke and fur ascend, Germany, that's got the whipping, will be winner in the end. For she's heating up her boilers and she's speeding up her mills, and her brawny, husky toilers go to work with loyal wills. While we rant around and clamor of our rights and of our wrongs, Germany takes up the hammer and sounds forth the work time gongs. Watch the Germans, see them germing, in their old efficient way, while we're squeking, squabbling, squirming for a big advance in pay.

MATRIMONIAL

Reis-Reis.

The marriage of Martin Reis and Miss Olivia Reis, both of St. Louis, occurred Thursday morning at 9 o'clock at St. Boniface church in St. Louis. Rev. Father Neiders celebrated solemn high mass, assisted by Fathers Lempsey, Dreer and Haefner.

The young people were attended by Miss Marie Reis, sister of the groom; Miss Aurea Reuterman of Belleville; Val Reis, brother of the bride and Herman Heinzeman of St. Louis. The ceremony was witnessed by a large company of relatives and friends of the contracting parties, both of whom are very popular in the social circles of St. Louis.

The bride was handsomely attired in a gown of white satin made en train, with trimmings of silver and pearls. She wore a sweeping tulle veil caught up with a wreath of orange blossoms. The bridesmaids were dressed in coral and green satin with ostrich trimming. They wore black velvet hats with ostrich plumes.

After the ceremony a wedding breakfast was served at the home of the bride's father, Val F. Reis, at 324 Hurck street, St. Louis. All the arrangements for this wedding event were of an elaborate character and the ceremony was a beautiful and impressive one.

The bride, who is the daughter of Val F. Reis of St. Louis, has often visited in this city. She is a young woman of great personal charm and has a wide circle of friends. The groom is a son of Mr. and Mrs. Martin Reis, well known residents of St. Louis. For a number of years past he has been associated with his father in the lumber business in South St. Louis.

Mr. and Mrs. Reis will be at home to their friends after December 20 at 4542 Michigan avenue, St. Louis.

Miss Gladys Sargent of this city was among those in attendance at the wedding.

COAL SHORTAGE NOW CAUSES DEEP CONCERN

Local Dealers Are Seeking Additional Supply—Railroads Face Big Problem in Making Distribution.

The shortage of coal is now being acutely felt in Jacksonville, as very little has been received during the past week. All dealers have been strenuously engaged in the effort to secure shipments but almost without avail, altho a number of cars have been promised for early movement to this city. While no coal is being produced in the state several hundred cars are being received daily from West Virginia and Ohio mines. Practically all of this coal is being consumed in Chicago, altho a few cars are being diverted to down state cities where the need is acute.

The Organization Plan.

Illinois is in the central regional coal district and B. J. Rowe, with offices at 547 West Jackson Boulevard, Chicago, is in charge of distribution. Mr. Rowe is an Illinois Central railroad official who has been designated for this work in the present emergency. His assistant is G. A. Barclay, a man experienced in the coal trade.

The method necessary to secure special relief is for a dealer or consumer to make application thru the agent of the railroad over which he is seeking shipment. The railroad agent then sends in the formal written order to the designated official of his road. Then this officer sends the application to Mr. Rowe for approval, as it is only after this approval has been given the railroad official has the authority to make shipment.

A Big Problem.

With insistent demands coming from so many different sources and with a very short supply available, it is easy to understand the men in charge of the distribution have different problems to solve. This situation was illustrated recently by F. L. Johnson, assistant general manager of the Burlington system, who is in charge of the coal distribution on that road. Mr. Johnson said: "We have 9,000 miles of railroad and there are 1,800 cities looking for fuel. Now today we have 547 cars on our tracks and how to handle them to bring the greatest relief to the greatest number is our problem. This same situation prevails on the other railroad system."

In case of smaller railroads the demand is less but the supply of coal is also proportionately less. It is estimated by those conversant with the whole situation that unless the weather is extremely cold that no real suffering will come for at least three or four weeks, even if no more mines are opened than are now in operation. This statement does not refer to the industries, for many of them must be shut down if the strike continues, and only those that are classed as necessary will be given fuel. Meanwhile those who are not of pessimistic mind have faith that the next few days will result in some plan which will bring either a settlement of the trouble or at least the operation of a larger number of mines.

Call Engine Men Out.

The most important phase of the situation Saturday was the announcement of the order of the union calling out the engine men who have been on duty at the mines since the work of getting out coal was stopped four weeks ago. It is usually the plan during a strike for the miners to permit engineers and workers of that class to remain at their posts so that no damage results to the property during the period of idleness.

If this order calling out the engineers is followed to the letter it will mean a vast amount of damage to mining property and will mean than even when the strike trouble is settled that many days must be spent in clean up and repair work before the mines will again be in condition to produce coal.

What Is a Chiropractic Adjustment?

Some folks who first thought that Chiropractic was everything except a wonderful, new health method, have gained peculiar impressions of what a Chiropractic Adjustment really is.

An adjustment is primarily given with only the Chiropractor's two hands. How he does it; why he does it; what part of the spine he does it to, are all part of his Science. The expert knowledge is acquired only after years of intense study and practice.

After analyzing the spine and finding out the defects that impede nerve energy and result in disease, the Chiropractor adjusts the moveable bones of the spine back to their proper normal positions. The cause is removed; the pressure on the nerves is relieved and normal function resumed with complete nerve energy restored, the natural forces of the body build up the weak and diseased organs. Health results.

CHIROPRACTIC
THE BETTER WAY TO HEALTH

is in full accord with the laws of man's being. No drugs or surgery are used. Chiropractic (KI-RO-PRAK-TIC. is being endorsed by authorities everywhere from the scientific standpoint, because it is right. Its marvelous record of accomplishment recommends it to all who are not up to the mark in health and efficiency. Give Chiropractic a trial.

INDICTED NEWBERRY

(Continued from Page One.)

reservations on the shores of Lake Superior where aborigines were voted according to the behest of the Newberry campaign organization.

Many Charges Made.

It was alleged that voters were bribed, election boards corrupted, editors subsidized and moving picture theaters bought up in the endeavor to defeat Henry Ford first in the primaries of both parties and later, when he had won the Democratic nomination in the election itself.

Officials were a bit secretive as to how the alleged conspiracy was uncovered but a general outline of their methods was made available. It was revealed that an attempt was made to repeat the suspected tactics of the Newberry campaign. Under this plan, a corps of investigators were sent into the state under direction of Earl J. Houck, who with Frank J. Dailey, special assistant to the attorney was a central figure in the election fraud cases of Terre Haute, Indianapolis, Evansville, Frankfort, Indiana. These cases beginning in 1915 resulted in some 200 convictions.

Dailey and Houcke came to Michigan last August. Bank records were inspected and the visitors' lists of safety deposit vaults gone over. With these as a starter, the investigators were sent out. They visited "small fry" politicians first, offering them vague hints of what might come from a mythical campaign of a certain Michigan politician. Objections to small returns were followed by "confidential" comparisons with the Newberry campaign.

Fell Into Traps.

Generally, it was said, these lesser political leaders fell into the traps, telling what they had received and explaining who "ought to handle the money", in given wards or towns. The next grade of political leader was then approached and by this method it was stated a clear track was blazed to the "higher ups." When brought into the grand jury room and confronted with accurate accounts of their conversations with the agents, the men generally, it was said, repeated their stories.

The government's legal experts, headed by Mr. Dailey, Mr. Dalesouter, of Grand Rapids, a former assistant district attorney and Oliver Pagan indictment expert for the department of justice took both state and federal laws as the basis for the indictments. The federal corrupt practices act of 1910 limits the expenditures of senatorial candidates to $10,000, and requires that four statements be filed with the secretary of the senate, one preceding and following first the primary and then the election. The Newberry affidavit cited in the second indictment was filed in correspondence with this act.

Made Bribery a Crime.

The second federal corrupt practices act which the indictment alleged was violated, was passed in October, 1918. It made bribery of voters a crime after several courts held that such an act was not an offense against the laws of the United States. This came into being after the Michigan primary, just ahead of the election.

The state laws were brought in because the act of 1910 provides that if a state limits campaign expenditures to less than the $10,000 named in that act then the state law shall apply to campaigns within that commonwealth. As it happens Michigan statutes limit campaign expenditures to a fourth of the yearly salary of the position sought. An aspirant for United States senator in this state may therefore it was argued, spend only $1,875 on the primary and an equal amount on the election campaign.

Will Use Statement

To meet a probable defense that Senator Newberry was ignorant of the amount of money and its sources used in his campaign the government intends to use a statement issued by the senator's managers shortly after the rumors of corruption began to be heard. This statement showed receipts of $178,856 and expenditures of $176,568. Of the contributions John S. Newberry, the senator's brother was credited with $99,000; A. Victor Barnes, of New York, president of the American Book Company and a brother of Mrs. Truman Newberry with $25,000; Henry B. Joy of Detroit, another brother-in-law of the senator with $25,000 and Mrs. Henry B. Joy, the senator's sister with $10,000.

The government will attempt to show that all these persons conferred with Truman H. Newberry while he was a candidate thus indicating his knowledge of the campaign.

The second indictment starts with a count which charges expenditures in excess of the legal limit in the primary and election combined; the second count alleges the same charge with relation to the primary alone and the third repeats it as to the election alone.

The Fourth Count.

The fourth count charges violation of the state election law in that more than $6,750 was spent in the two campaigns.

The fifth count charges conspiracy to commit thousands of offenses against the federal act of October 1918 forbidding payment of money to voters.

The sixth count bristles with accusations. It alleges that certain defendants each contributed more than the total amount allowed by law, knowing all the time that they were violating the statutes and that certain of the defendants induced others to give by falsely representing the amounts already contributed to the campaign.

It alleges further that more than $100,000 of the amounts so contributed were converted to the personal use of certain politicians. It is also charged that more than $100,000 was paid to newspapers, campaigners of all degrees, for office and hall rent, dinners and other entertainments.

NO FURTHER CLEMENCY

Will be Extended Mooney by California Executive.

Sacramento, Cal., Nov. 29.—No further clemency in behalf of Thomas J. Mooney, convicted of murder in connection with the San Francisco preparedness day bomb explosion is warranted by anything within the knowledge of Governor W. D. Stephens, the governor stated in a letter made public late today.

"Of Mooney's guilt there is in my mind no question," the letter stated.

The letter continued:

"In my judgment a grave injury is being done labor everywhere when it is made to appear by those who occupy places of leadership that organized labor champions such a heartless and vicious murderer as Thomas J. Mooney.

"Of Mooney's guilt there is in my mind no question. I am convinced he had a part in one of the most atrocious crimes involving treasonable purpose ever perpetrated in the history of our country. Ten persons were killed and fifty maimed by Mooney and his associates who were evidently in sympathy with Germany's agents who were resorting to every desperate measure to thwart preparedness of the American nation for war."

The letter was to Paul Scharringburg, secretary of the California State Federation of Labor and was in reply to a communication from Scharringburg informing the governor of the appointment of a committee by the American Federation of Labor to appeal on behalf of organized labor for the release of Mooney and Warren K. Billings, also convicted of murder in connection with the bomb explosion. Both are serving life sentences, Governor Stephens having commuted the sentence of Mooney from death to life imprisonment.

SHOOTS WOMAN; REPENTS

Youth Gives His Blood for Transfusion to Her Veins After Shooting.

Washington, Nov. 29.—Mrs. Florence Robinson, comely young matron lying near death in a hospital and Grover Gordon, little more than a youth who, because, he said, he loved her, yesterday shot the woman thru the body and who for the same announced reason twelve hours later kept her alive by giving his blood for transfusion to her veins, today were the principals in one of the most remarkable crime incidents in Washington police history.

Following a jealous quarrel recently, Gordon yesterday went to the home of the young woman, who some time ago had separated from her husband to bid her final good-bye, as he expected to leave that day for his old home in Wheeling, W. Va. As she stood in his embrace Gordon fired a revolver shot thru her body.

After his arrest last night Gordon was told that Mrs. Robinson would die unless some one speedily volunteered to submit to blood transfusion. He eagerly offered himself and requested only that if the patient still were conscious that she be told of his action.

Physicians today said it was too early to say whether the operation would save Mrs. Robinson's life. In the meantime the police were wondering what the effect would be should the woman whom Gordon had tried to kill be saved from death thru his own sacrifice of blood.

OUTLINES ACTIVITIES

Report Shows Work of National Defense During War.

Washington, Nov. 29.—Declaring "there has come into being a new vital thread running thru the social fabric of the country as the result of an emergency effort borne of the war," the third annual report of the council of National Defense made public today outlined the diverse activities of the council during the war and described the organization perfected to aid in the work of re-establishing the nation on a peace basis. The report estimated the total cost of the council from its inception in the winter of 1916 to date at $1,500,000, an example of economical administration it says "for which it is extremely difficult to find a parallel either in governmental or civil life considering the council's achievements."

Much of the credit for this performance was given the "dollar a year" men who formed an important part of the council's organization.

"The council of national defense," the summary said, "was the prolific mother that gave birth to the majority of the vital non-military war time bodies of the United States which in turn threw their accumulated power behind the American armies and worked the final tragedy of the imperial German government."

TOLD TO KEEP "HANDS OFF"

Sheriff Threatens Impeachment of Mayor of Wheeling.

Wheeling, W. Va., Nov. 29.—Disorders which have marked the steel strike in Benwood, near here resulted in an announcement today by Sheriff W. E. Clayton, that he would make every effort to have Mayor Sprouls and Chief of Police Landers impeached. According to the sheriff several steel plant employes enroute to work have been assaulted and no arrests in connection with the cases made.

Sheriff Clayton said today that he had been told to keep "hands off" in Benwood during the strike but he has placed a force of deputy sheriffs on duty there.

that they considered it "an open break" of relations between the union and the operators.

Those in close connection with the situation here said tonight that a majority of the operators were taking steeps looking to an immediate resumption of coal mining activities. The union mines of the district have been tied up since the strike was declared 29 days ago and it was expected that for the first time since the men walked out, coal would be mined in this district Monday.

Chicago, Nov. 29.—Rapid developments today marked the chaotic conditions in the bituminous coal fields of the country where approximately 400,000 miners have been on strike since November 1, but there was on indication of an immediate return to production.

Posting of notices by the operators at the mines announcing fuel Administrator Garfield's 14 per cent wage advance was general but it was agreed no effect of the offer would be noticed before next week.

While awaiting results of the government's decision that coal must be mined with a 14 per cent wage increase, Governor Frederick Gardner, of Missouri, called a conference of governors of nine coal producing states to be held tomorrow morning in Chicago.

Federal troops started tonight from Fort Leavenwarth and Fort Riley at the request of Governor Henry J. Allen of Kansas who issued a proclamation mobilizing 1,200 members of the Kansas National Guard for guard duty in the Kansas strip mines of which the governor recently took control.

Dr. F. C. Honnold, secretary of the Illinois Coal Operators' Association asserted that the emergency men left by the miners' union in the works had been called out in Williamson and Saline counties.

The governors of Illinois, Indiana, Iowa, Kansas, Kentucky, Missouri, Ohio, Oklahoma and Tennessee were invited to the conference here tomorrow. Other state executives may attend.

Governor Harding of Iowa, was the first to arrive tonight.

HUNGER STRIKE BROKEN

New York, Nov. 29.—The hunger strike of the Ellis Island soviet was broken today. All but five of the 68 radicals who had refused to eat since last Monday evening eagerly answered the call to the dining room for breakfast.

RECEIVES FURTHER FACTS OF SON'S DEATH

Mrs. William E. Saner Has Letter From Officer Under Whom Son Clarence Saner Served—Says He Was Faithful in Every Trust.

Mrs. William E. Saner has received a letter from Capt. Sherman W. Putnam of Midland, Mich., under whom her son Clarence Saner served in France, containing further facts regarding the latter's death.

Capt. Putnam says that Saner was one of the most popular men in the company and faithful to every trust. He also was faithful in religious duties and received the last rites of the church before his death. The letter to Mrs. Saner follows:

Mrs. William E. Saner,
Jacksonville, Illinois.

My Dear Mrs. Saner:—

The last letter that I wrote you was written while I was still at Camp de Meucon, France. I was so extremely busy then that I did not have time to give you the information which you deserved and, inasmuch as our mail was all censored, it seemed almost impossible to get a letter through that contained any information of any kind.

Your son, Clarence Francis Saner, was with me throughout the entire period of his work in France. A man more loyal I did not have and one who took more interest in his work could not have been found. He came into my office the boy that you knew him to be without any great deal of large business experience and was immediately put in charge of my pay roll department which in itself was one of the largest jobs of its kind in the camp. Even though inexperienced he worked night and day, mastered the details of the work, and at the time of his death was one of the most valuable men that I had.

At the time of his entry into the hospital from wounds caused by an accident he did not write you because, as I found out later, his love for you was so great that he did not want to burden you with worry. He was very certain that he would become well and be able to carry on his duties as before and, therefore, did not think that it was necessary to place the extra burden on you. However, had I known that he was not keeping you informed, I surely would have insisted upon his doing so. He was in the hospital about two or three weeks and did very nicely and at the end of this time came back to work. We could see that he was not at all strong and it was with the idea of making things easier for him that I allowed him to work only a few hours each day and then only such work as could be easily done without any physical effort. At this time, as you know, the influenza epidemic was raging throughout our army in France and our camp was hit nearly as badly as any of them. Within three days after Clarence returned from the hospital he was taken back again and this time with Spanish influenza. I had Mr. Quinn, one of his comrades, take special care to supply him with anything that he needed at this time and I am sure that he was well taken care of. But it was only a few days later when I was called to the hospital by the commanding officer and told that Clarence would be unable to live another day. I reached the hospital about two hours before he lapsed into unconsciousness and for about twenty minutes the boy, I think, realized that he had no chance. He asked me to take care of his personal belongings and also to write you that he had been true to the trust which you had placed in him and that he had done his best. It was impossible for us to have an American priest there at the time but the French Catholic priest visited him a short time before and we are confident that everything was all right because your boy was most conscientious regarding his religious duties. Though not a member of the Roman Catholic faith myself, I had the pleasure of granting permission for him to attend every Catholic service held in or about our camp and I am sure that you will find that the other boys of the same faith in my command will vouch for his faithfulness in these matters.

He was a friend among friends and a man among men, always taking the side of the right and always keeping apart from the degrading things of life. There was no one in the whole camp who was more well thought of, who had more friends, or did more good than did your son before he was called to do a greater work.

The funeral, which was held in true military style, though not compulsory was attended by practically the full company on account of their love for their comrade who had preceded them on the journey which all must take. It was impossible for us to arrange for a priest at the last service but it was taken care of by one of the Y. M. C. A. men who was a particular friend to all my boys. His body now lies in the American cemetery at Camp de Meucon, France, plat No. 1, section No. —, grave No. 5. I took several pictures of this grave and out of the five taken, three have turned out badly. I am in hopes that the other two will be more satisfactory. I took special pains to personally see that his grave was graded up and that flowers were placed thereon and left special word with the French care taker as to the personal trust that was being placed in him, not only of all the graves, but of the particular one in which your son rests. I may be returning to France next year and if I do I shall visit that spot, if possible, in order to be sure that every thing is being taken care of in desirable manner.

It has been my privilege to have a great many heart to heart talks with your boy and at nearly every one the whole time was taken up by his telling me how much he loved his parents and loved his home and how much he appreciated the great sacrifices which you made in order that he might be a success and a satisfaction to you. I wish to assure you in this connection, Mrs. Saner, that there is no doubt but that you have a right to feel that you are one of the proudest mothers in the land to have had such a son as Clarence. He gave his life for his country while doing his duty as was shown him. There was not a more willing man in my whole command, always alert and always ready to do everything in his power to make our particular place a success which, in turn, added success to every branch with which we were connected the same as every branch added to the successful winning of the war. Though it is impossible for me to even presume to imagine the grief which his untimely death caused you, yet I cannot help but feel that it must be a sort of satisfaction for you to know that you had a son who was willing and ready to make the supreme sacrifice and who always remembered and remained true to the trust which his mother had placed in him until the last time he saw the light of day. He was ever ready and willing, whether upon the shell-torn battle fields of France, or in the calm pursuits of civil life, to stand the tests which are given us all by that One who only has the power to give life and take it away.

I regret very much that it has been impossible for me to make the trip to Jacksonville as yet, but I am sincerely hoping that the time will not be far distant when I will at least be able to get to Chicago and perhaps be able to meet you there, or even to make the longer trip to Jacksonville itself. It will indeed be a great satisfaction for me to be able to visit the home of the boy that I loved so much and to talk with the mother and the father whose guiding influence had made such a success of their son's life.

Assuring you of my deepest sympathy and my desire to aid you with any information that I can, I wish to remain

Yours very sincerely,
SHERMAN W. PUTNAM

JOHN CHERRY WILL HAVE MODERN GARAGE

Large Livery Plant Will Be Entirely Remodelled—Will Have Large Storage Space That Will Be Convenient for Car Owners' Use.

The day of the horses for pleasure driving, country trips and much about town work, is fast passing, and realizing this fact Cherry's Livery quarters are undergoing a radical change in keeping with the times which, when concluded, will afford a commodious modern garage.

For many years the name of John Cherry has been intimately identified with the livery business in Jacksonville.

The large concrete block barn on the corner of North Main and West North streets was erected in 1907, since which time their rapidly growing business has necessitated the building of additional structures in the immediate vicinity.

With the now almost universal use of the automobile and truck, further changes have been found imperative and Mr. Cherry decided to turn the original building into an uptodate garage, the newer buildings having been utilized for auto storage for some time past.

Workmen are now engaged in tearing out the stalls and partitions. Walls and floors will be cemeted and a steam plant installed, and every thing essential done to enable the management, under the direct supervision of Ralph Withee, to give the same efficient service to the car owner that has for so many years been given to drivers of horses.

W. Sherman Williams has returned to his home in Kansas City after spending Thanksgiving Day with Mrs. W. I. Brown of West Independence avenue.

HUMANITARIAN LECTURER AT FORUM

Jacksonville will hear one of Illinois' foremost speakers tonight when Dr. Frank Waller Allen speaks at the Community Forum in the Congregational Church. His subject is Personality Plus or The Useful Citizen. As an author Dr. Allen is known through the length and breadth of the Continent; his "Lovers of Skye" taking rank with the first three best sellers published in the year 1913. "Brothers of Bagdad", which was issued in Doubleday, Page and Company's "Short Stories" is his most recent novel.

This evening Mr. Allen will fill his lecture with simple concrete instances taken from daily life by way of illustrating his points. As an old newspaper man he knows his subject from every angle, he senses the needs of humanity and in a very earnest manner tries to meet those needs. The cause of failure in life and the method of success; the substitution of courage for fear, the power and poise of the useful citizen will be taken up in this strong lecture. Doors open at 7 p. m.

NAVY DEFEATS ARMY 6--0

WO FIELD GOALS BY ING BRING VICTORY O ANNAPOLIS ELEVEN

IDDIES WIN FIRST TIME SINCE GAME OF 1912

reatest Crowd That Ever Beheld the Service Gridiron Classic Weathers Rain and Fog to Witness Contest—Green, Blaike and Wilhilde Stars of Army Team.

New York, Nov. 29.—The Annapolis goat who today wagered is blue blanket against the lack, gray and gold trappings of he West Point mule, all on the esult of a certain football game t the Polo Grounds, tonight is nibbling with satisfaction his rival's coat of many colors.

For, before the greatest throng that has ever beheld the service gridiron classic, the Navy trounced the Army 6 to 0. Two field goals booted by King on a field smeared with mud, brought victory to the middies for the first time since 1912 when Annapolis won by the same score.

Renewed after a lapse of three years occasioned by entry of the United States into the world war the contest lost none of its pomp and ceremony. The commanders-in-chief of the two serveces were in their boxes. Admirals rubbed shoulders with generals, congressmen and diplomats vied with one another for front row seats and fair women without number viewed the spectacle.

And to their credit be it said that altho the game began in rain and ended in a fog which at times hid punts from view there was not a deserter among the 45,000 spectators.

Long before the gates were thrown open at 11 a. m., thousands had reached the grounds.

By one o'clock the stands were well filled. The first two quarters passed with a tally of three to the credit of Annapolis. In the intermission the spectacle took on a new interest for the spectators. When Secretary Daniels and Secretary Baker advanced from their boxes to midfield to clasp hands, it was seen that General Pershing strode to one side of his chief and General March on the other.

The greeting was brief, but the army men, losers in the first half as in the second, advanced to the navy's side for a few minutes to tender their congratulations to the winner.

Two more periods of hard bucking and harder tackling; another moment of joy for the navy when King again kicked fair and straight and then the final blast of the whistle.

Rising as one man, the middies hurled their golden megaphones on the field of victory. There was a scramble, a rush to the colors and a long column of blue clad figures passed in triumph under the army's goal.

The only department of the game in which the Army showed to advantage was in punting, Acting Captain McQuarrie's kicks as a rule outdistancing those of Clark. Green, Blaike and Wilhilde were the stars on the Army team.

There was a noticeable absence of open play. Only four forward passes were tried in the game and all failed. What end running there was resulted in only short gains.

GAME CLAIMED FIVE VICTIMS DURING SEASON

Number of Deaths Resulting from Football Contests Is Lowest in Years.

Chicago, Nov. 29.—Football, the roughest of American outdoor sports claimed five victims during the 1919 season, which closed with Thanksgiving Day games, according to reports to the Associated Press. The number of deaths—the lowest in years—was was less than in 1918 and seven under the toll of two years ago. There were eighteen lives lost during the 1916 season and sixteen in 1915.

Development of the open style of play is mainly responsible for the decreasing number of fatalities, in the opinion of gridiron experts.

Virutally all of the victims of the 1919 season were players not participating in games conducted under strict physicial requirements. Defenders of the popular college sport pointed out that with one exception, the victims were high school players who entered the games without expert training.

The small number of fatalities this season was declared to be remarkable, the experts said, as the game was played more extensively than even before pre-war days.

The list of victims follows:

Paul Johnson, Wayzata, Minn., 19 years old; died Nov. 27 from concussion of the brain after being tackled in a high school game.

Lewis Moulton, Neodesha, Kas., a member of a high school team, died Nov. 5 as the result of a broken neck, received in a practice game.

Calvin Libisher, Urbana, Ohio, 17 years old, died September 29, from cerebral injuries, sustained in a high school game.

Gardner Dow, New Haven, Conn., a member of the Connecticut agricultural college eleven, died Sept. 27 from concussion of the brain; injured playing against New Hampshire college.

Joseph Blancke, Moline, 16 years old; died Oct. 30, of blood poisoning, which developed from an injury sustained in a neighborhood game.

IS OFFERED $15,000

Denver, Colo., Nov. 29.—Mike O'Dowd of St. Paul, middleweight boxing champion was offered $15,000 to meet Jeff Smith in a 20-round bout here in January for the championship in a telegram forwarded to O'Dowl tonight. The match would be staged during Stock Show Week, it was said.

JACKSONVILLE IN I. AND M. LEAGUE

Will Probably Receive Invitation to Join League if it is Reorganized—Meeting to be Held Soon —Jacksonville Among Cities Mentioned for Membership.

Peoria, Ill., Nov. 29.—An effort to revive the Illinois-Missouri Baseball League, a Class D organization will be made at a meeting to be held in the near future, it was announced here today by Walter Diehl of Pekin, a former player and manager in the organization.

An eight club circuit to include Pekin, Lincoln, Canton, Beardstown, Clinton, Havana, Galesburg and Monmouth is proposed. Other cities which may be considered are Champaign, Kankakee, Jacksonville and LaSalle.

The Illinois-Missouri League was organized in 1908 and operated until 1913 and all of the above named cities at one time or another were members.

Edward Rollin of Pekin, and C. A. Cline, of Clinton, former presidents of the organization, will aid in the reorganization work.

The news in the foregoing dispatch should be of interest to local fans. Jacksonville fans showed last summer by their attendance at the semi-professional games at South Side park that the city is still a good baseball town.

For a number of years games were played at Nichols park and in 1918 at the old West Side park. However, these parks were so far from the street car terminal that they were not well patronized. Last summer with the park convenient to the car line the attendance surpassed any since we had league baseball.

Jacksonville really belongs in a higher class than the Illinois-Missouri league. However, if the league is formed there is not much doubt that Jacksonville could secure a berth. Many local people patronize games during the week who do not attend Sunday games.

During the years Jacksonville as the Western Association, Central Association and the Kitty League it ranked high in attendance and surpassed every city in the circut in week day crowds.

It would be well for local fans to talk up the matter of joining the Illinois-Missouri league should it be reorganized. A club there might lead to one in the Three Eye later on. Some preliminary steps should be taken so that a representative can be sent to the meeting when it is called. Fans, get busy.

CARPENTIER TO MEET BECKETT THURSDAY

PARIS, Friday, Nov. 28.—By The Associated Press.—Georges Carpentier will have a powerful ally fighting for him when he faces Joe Beckett at Holborn Stadium on December 4—the rate of exchange. Carpentier will receive £5,000, win, lose or draw, according to unofficial reports. At the normal rate of exchange this would mean that the French champion would receive about 125,000 francs but with the exchange rate as it is at present, running at about 40 francs to the pound, Carpentier's share will amount to almost 200,000 francs.

Carpentier has wagered 2,000 pounds, or approximately the difference betwen his share under normal rates and at present.

"I am betting velvet, just plain velvet on the fight," says the Frenchman.

ISSUES FORMAL CALL FOR ANNUAL MEETING

CHICAGO, Nov. 29.—President Ban Johnson of the American League tonight issued a formal call for the annual meeting of the league to be held in Chicago December 10. He selected Chicago altho Harry Frazee of the Boston club, Charles A. Comiskey of Chicago and Jocab Ruppert of the New York club, members of the board of directors, called a meeting of their own in New York on the same date.

"I have no comment to make on the action of the three directors who are seeking to summon the club owners to New York," said President Johnson.

TERRE HAUTE WILL RETAIN FRANCHISE

TEDRE HAUTE, Ind., Nov. 29.—Terre Haute will retain its Three Eye League franchise next year, according to announcement made today and Mordecai Brown probably will be retained as club manager.

Baseball in Terre Haute was a success financially last season, the first time in years. An offer to train next spring at Indiana University, Bloomington, Indiana, has been received and will probably be accepted.

SCHOOLS WILL MEET AT NEW YORK CITY

AURORA, Ill., Nov. 29.—West High of Aurora and Flushing High, preparatory school champions of New York City, will meet in an intersectional clash at New York City December 6, it was announced here today. West High defeated the unbeaten East High eleven Thanksgiving day and thereby established claim to the football championship of the Illinois high school conference.

ILLINOIS U. FIVE WILL MEET MILLIKIN

Urbana, Ill., Nov. 29.—Coach Ralph Jones announced today that the University of Illinois Basketball team would meet the Millikin five in two games before the opening of the conference season. The Illini will play at Decatur on Dec. 13 and Millikin will come to Urbana Dec. 26.

Miss Jeanette Conboy
Has Birthday Party.

Mrs. P. H. Conboy entertained a company of young people at her home, 716 West College avenue Saturday afternoon in honor of the thirtenth birthday of her daughter, Miss Jeanette Conboy. Thirteen of the young lady's school mates were gests and the hours from 2 to 4 o'clock were spent with games and music. Miss Jeanette received a number of handsome presents. Refreshments of ice cream and cake were served and the birthday cake with thirteen candles was an added attraction to the children.

Birthday Surprise For
Mrs. Walter Robertson.

A birthday surprise party was given Mrs. Walter Robertson, of Prentice, Thanksgiving day. Brothers and sisters planned the surprise, each taking well filled baskets. The party arrived unexpectedly about 10:30 in the morning, but were most heartily greeted. At noon a table had been arranged to seat eighteen and a real old-fashioned Thanksgiving dinner was served. A feature of the dinner was a birthday cake brought from Monticello by a sister of Mrs. Robertson, Mrs. John Salyers. The afternoon was spent in conversation and with games. Prizes were won by Frank Robertson, Marshall Robinson and Mrs. W. W. Robertson. Late in the evening all departed for their various homes wishing their hostess many happy returns of the day. Those present were: Mr. and Mrs. Martin Robinson, Mrs. Luther Sheppard, Mrs. Arthur Bloomfield and children, Mr. and Mrs. John Salyer, Mr. and Mrs. J. W. Martin and children, G. W. Martin, Mr. and Mrs. Harrison Robinson, Mr. and Mrs. A. C. Foster and children and Mrs. Frank Foster and children.

Celebrated Birthday
Anniversary Thursday.

Friday, Nov. 28th. marked the birthday of Mrs. Zed Bell, which together with Thanksgiving Day was duly celebrated at their home northwest of the city.

By the noon hour, there were 41 guests gathered ready to do justice to the bountiful dinner so ably prepared by Mrs. Bell, kindly assisted by Miss Stella Blackburn and Aunt Maria Walters whose art in the culinary line can not be excelled. It is needless to say every one most heartily enjoyed this noon-day meal so tastefully arranged to satisfy the wants of the inner being. The one thing that marred the completeness of the happy reunion was the absence of one brother James Oxley and family of Palmyra, who, on the account of the condition of the roads, was unable to be present.

Those present were: Mr. and Mrs. Robert Bell and daughter of Kilbourne; Mr. and Mrs. William Oxley, Mr. and Mrs. George Oxley, Mr. and Mrs. Thomas Oxley, Mr. and Mrs. John Oxley and family, Mr. and Mrs. Richard Oxley and family, Mr. and Mrs. Richard Oxley and family, Mr. and Mrs. Edgar Oxley and family, Mr. and Mrs. Frank Wilson and Maxine, Mrs. Vella Rees and Margaret, Mrs. Eliza Rawlings, Carol Dorley, Miss Stella Blackburn, Mrs. Maria Walters.

The afternoon was spent in conversation and music after which the guests departed for their homes, wishing Mrs. and Mrs. Bell many happy Thanksgiving days.

Mr. and Mrs. Abe Liter
Entertained Friends.

Mr. and Mrs. Abe Liter entertained a number of friends at a Thanksgiving dinner Thuorsday. The menu served was a most excellent one and included turkey and all the other good things of the season. The guests were: Mr. and Mrs. Harry Stevens Bessie and Jessie and sons Loren and Earl of Springfield; Mr. and Mrs. Bert Way, daughter Marie and son Gene of Concord; Mr. and Mrs. W. Norman and son Paul of Literberry; Mrs. Lucy Paul, Literberry; Bob Bateman and daughter Lillian and son Ivan. B.Lowden, Miss Kate Lowden, Benjamin Collins and Geo. Baker, Jacksonville.

LITERBERRY

Literberry, Nov. 29.—There were quite a number of Literberry residents in Jacksonville shopping Saturday. Among those who visited the city were: Miss Lula Henderson, Misses Wilma and Alta Crum, W. H. Crum, Mrs. S. H. Crum, Mr. and Mrs. Durrell Crum, Miss Lela Maul, Miss Georgia Liter, Paul and Oscar Johnson, Mr. and Mrs. George Roach, and John McFarland.

Mr. and Mrs. J. S. Hitchens and Mrs. Ella Neale returned Saturday after a several days visit in Macomb.

John McDonald of the north part of the county called in town yesterday.

WINCHESTER

Winchester, Nov. 29.—Miss Cecil Christison who is teaching this year at Plymouth, Ill., is at home during the Thanksgiving holiday.

Roy Barnett underwent an operation for appendicitis Thursday afternoon at his home near here. Dr. F. A. Norris of Jacksonville and Dr. Bowman performed the operation. He was reported as well as could be expected Saturday.

Misses Helen and Janice Taylor who are attending Illinois College at Jacksonville are enjoying the Thanksgiving vacation at the home of their mother, Mrs. Peter Taylor and family.

John Morten and bride returned Friday to their home in St. Louis after a visit here with relatives the past week. Mrs. Morten was formerly Miss Cecil Taylor of Winchester. The last two of three years, however, Mrs. Morten has made her home in Jerseyville and East St. Louis.

James Brown, Jr., expects to leave Monday for Miller, South Dakota, where he and his family will reside. Their many friends will regret to see them leave Winchester but will wish them the best of success in the northern state.

Avery Christison of Jacksonville is visiting his uncle Richard Christison this week.

Mrs. Edward Rohrig returned Friday from a short stay in Jacksonville.

Misses Henrietta and Dorothy Hainsfurther returned Saturday from a short visit in Pittsfield with relatives.

Mrs. W. D. Gibbs underwent an operation at Passavant hospital in Jacksonville Friday. Her friends will be pleased to know that Saturday night she was reported as resting comfortably.

John Hopper Funeral.

Funeral services for the late John Hopper were held at the Methodist church here at 2 o'clock Friday afternoon with Rev. C. W. Casely officiating. Suitable music for the occasion was afforded by a quartette composed of Mrs. C. W. Bane, Mrs. J. C. Neat, Mrs. W. C. Kuechler, and Miss Bertha Hart. The pall bearers were six nephews of the deceased. The members of the G. A. R. post attended in a body and on account of the inclement weather held their services inside the church rather than at the grave. Among those attending the services from a distance were: Mrs. W. C. Yates and daughter Miss Stella of Baylis, Dan Perkins and son of Beardstown, William Sheppard of Girard, and Mr. and Mrs. Albert Weeder of Murrayville.

CHAPIN'S WOMAN CLUB IN REGULAR MEETING

Met With Mrs. Sidell and Mrs. Scott—Mr. and Mr. R. B. Wallace to Spend Winter in Florida—Other News Notes from Chapin.

Chapin, Nov. 28.—The Woman's club held its regular meeting with Mrs. Sidell and Mrs. Scott on Tuesday afternoon, Nov. 25, with fifteen members present.

The club song was omitted, and the roll was responded to with "Incidents of the Revolution." The business session then followed at which time the committee to make the program for the coming year was appointed as follows: Mrs. Grover Smith, chairman; Mrs. Leitze, Mrs. Craven and Mrs. Steinfelt.

Mrs. Alpha Anderson then read a very interesting article on the airplane, entitled, "Let's Fly to Town This Afternoon."

The social hour was enjoyed by all, at which time the hostess served refreshments of ice cream, cake, coffee, and salted nuts. The next meeting will be held at the home of Mrs. Clarence Duckett on December 9.

Mr. and Mrs. R. B. Wallace left for Florida Thursday afternoon to spend the winter.

ACCIDENT CUT OFF LIGHT SERVICE

Trouble in Transformers Caused Annoyance—Tallow Candles in Big Demand For Short Time.

Trouble with the transformers in the plant of the Jacksonville Railway & Light Co. caused a temporary interference with electrical light in a part of the business district late Saturday afternoon. The lights went off on the west side of the business district about 4:30 and the service was interrupted for about one hour. Supt. E. H. Gray said last night that he very much regretted the happening and the inconvenience caused patrons, but that it was one of those accidents that is very hard to explain. Candles were in demand and nearly all the stores affected used these means of lighting.

Ordinarily trouble of this kind is indicated in the primary fuses of the transformer affected, but it was not so in this case, with the result that there was some difficulty in locating the trouble. However, electricians were busy immediately making the necessary investigation and repairs, with the result that normal service was restored before 6 o'clock. Today some additional work will be done on the transformers in order to be certain that there is no later trouble.

While a few consumers were temporarily inconvenienced, Mr. Gray has been fortunate since coming to Jacksonville in being able to maintain continuous service, and the Saturday afternoon happening is the only time that lighting service has been interrupted from accidental causes.

Coke Under Boilers.

Talking of the fuel shortage last night, Mr. Gray mentioned that he has been making some interesting experiments in the use of coke under the boilers. For a number of hours on certain designated days he has used noibing but coke and with excellent results. There is a month's supply of screenings on hand at the plant and in addition Mr. Gray is carrying a large stock of coke. It is fortunate for the city that he has the surplus stock at this time as this fact gives assurance that homes in Jacksonville will not be without fuel, even tho the coal strike continues for some time to come.

HOME FROM ENGLAND

John Robinson, better known as "Jack" and Mr. and Mrs. William Foster have returned from a voyage to the dear old fatherland on the tight little island of England and all are much pleased with their experiences. Mr. Robinson says he visited Scarborough, Hull, Manchester, London, and various other places. He found conditions fast assuming normal in general lines of manufacturing and business. There was a shortage of coal but otherwise things seemed to be about as usual. He saw the new monument to Queen Victoria, Westminster Abbey and the various places of interest. St. Paul's cathedral and the collection of statues which always attract. Mr. Robinson said there seemed to be no diminution in the sale of beer and ale and both sexes indulge in the flowing bowl and as the manufacture is so intrenched among the nobility and leading men of the empire it will be a long time before prohibition reaches England.

REDDISH MURDER TRIAL BEGINS MONDAY

JERSEY COUNTY CASE NEXT ON COURT DOCKET

Special Panel of Fifty Jurors Summoned—Judge E. S. Smith to Preside—Murdered Man Left Large Estate.

The trial of Dr. Horace Augustus Reddish will be called in the Morgan county circuit court Monday morning at 9 o'clock with Judge E. S. Smith presiding. In addition to the regular panel, an order for a special panel of fifty was made recently by Judge Smith and the specials are named below.

In this case State's Attorney Paul M. Hamilton of Jersey county is expecting to prove that Dr. Reddish is guilty of the murder of his father, Stephen Reddish, and Rachel Cisco, colored servant in the Reddish home. The double murder is said to have been committed last April. John W. Mackleton, an uncle of Dr. Reddish, has also been indicted for this crime, and his trial is set for hearing after that of Dr. Reddish has been completed.

State's Attorney Hamilton will be assisted by W. J. Chapman of Jerseyville and by State's Attorney Robinson of this county. The attorneys for Dr. Reddish are D. J. Sullivan of East St. Louis and Sumner & Reardon of Jerseyville.

Elder Reddish Wealthy

The late Stephen Reddish was reputed to be worth half a million dollars invested mainly in bottom land. Some years ago this land was not accounted as especially valuable as it was subject to overflow. Subsequently the land was drained and included in the Nutwood drainage district and it has increased in value very rapidly.

It is further said that Mr. Reddish made a will in 1913 in which he left his property in trust for his wife and two sons, one of the latter, Clarence Reddish, being cashier of the Jerseyville bank until the murder happening. By the reported will Clarence Reddish was to receive 450 acres of land more than the acreage bequeathed to his brother. A difference with his father over money matters is the motive assigned for the crime with which Dr. Reddish is charged.

It is an undisputed fact that Dr. Reddish had for some years lived at a rapid pace and for that reason had several times come into collision with his father's wishes. The evidence in the preliminary hearing when Dr. Reddish was arrested, tended to show that he was addicted to the use of drugs and that this habit was responsible for some of his unusual actions.

The trial has come to Morgan county on change of venue from the Jersey county court because attorneys for Reddish presented evidence to the court tending to prove that it would be very difficult to secure a fair trial for their client in his home county. Because of the desire to keep the public mind free from bias here local papers have refrained from carrying any extensive stories of the murder or of the events and circumstances leading up to the arrest of Dr. Reddish and the charges against him.

Special Jurors.

The men named in the special panel of jurors drawn are as follows:

SERGT. YORK BACK TO SOUTHERN HOME

Sudden Illness of His Wife Made Necessary Cancellation of Lecture Dates.

Many people were disappointed yesterday when the announcement was made that Sergt. York had cancelled his date for an address in Jacksonville last night. The message was not received until about 10 o'clock and as much publicity was given as possible so that those who had purchased tickets to the lecture might know of the cancellation before the evening hour.

Sergt. York addressed a large audience at St. Louis Friday night where he was the guest of the Tenessee society. St. Louis papers devoted several columns of space to the facts about the sergeant's visit in St. Louis and his address before the society. Mrs. York was ill at her hotel during the St. Louis visit and the message indicated that her condition was such that immediate return to the York home in the south was advisable.

The change in program necessitated the cancellation of the Monday date in Decatur. There interest in the lecture has been such that 300 tickets were sold during the first hour that they were sold. The message of cancellation to the Rotary club here indicated that it was Sergt. York's intention to visit this city at a later date this winter.

JACKSONVILLE GIRL IN COBLENZ, GERMANY

Miss Margaret K. Moore, Daughter of Mr. and Mrs. Ensley Moore, is Hostess at Y. M. C. A. House in That City.

"Gee, I didn't know there was any place like this in Coblenz" said a tow headed doughboy as he tramped into the big dining room of the Y. W. C. A. hostess house, followed by his buddy who likewise looked about with wide open eyes. There were bright lights, the place was warm, and in the stalls sat hosts of other soldier boys making way with good looking food, while at what looked like a bar, were busy German help, passing out to waiters, the heaped up plates. "You see I just came up a few days ago, and I just heard we could get some good grub up here. A fellow gets tired of army slum all the time." And the twain sat down and were almost the last ones out when the place closed for the night. These boys are typical of thousands who since the opening of the hostess house last February in Germany have made their way there to enjoy its homelike atmosphere, for although primarily established as a living center for the American women wefare workers in the occupied area, having been requisitioned by the army for the purpose, the main floor with its big reading and writing room, and the dining room have always been open to officers and men as well as to the women who far from home have found it a haven of comfort.

It was only one of a series of surprises that the American army of occupation brought when it marched into the Rhineland, this turning of the best saloon in Coblenz into a hotel under the management of the American Young Women's Christian Association. Its long established name remains over the front of the four story building, "Trierscher Hof" together with other German inscriptions telling of libations to be had there, but also there appear conspicuously, the sign of the Blue Triangle and the legend "American Y. W. C. A. Hostess House". A clever Colorado girl had assigned her the duty of opening this first hostess house in Rhineland. In a day, the officers who had been billeted there had been transferred elsewhere, and the American women welfare workers had been called in from billets in different parts of the town to live under this one roof. If when she came to Coblenz this girl had any visions of artistic decorative schemes in her plan of a hostess house, she was quickly disillusioned, for she had only to take what was available and make the best of it, but little by little, the place was thoroughly renovated, undesirable furnishings moved out, agreeable furniture and fittings moved in, and all this while a houseful of American women had to be made comfortable in lodgings, and provided with food, to say nothing of the hundreds of soldiers who began flocking to the place the minute they heard of the opening of the cafe where they could get a change from their monotonous camp mess. From its opening the hostess house has been full to capacity, while at high tide there were days when 1100 people were served meals. What the place meant as a home center to boys though curious to get into Kaiser land, nevertheless had yearnings for the folks back in the states, only they can best tell. Its popularity has been continuous, and now when there is only an army of some 8000 men in the Coblenz area, and the cafe patronage correspondingly diminished, the number now being on an average of from 300 to 400 a day, these men come regularly, linger at table to visit with each other and with the women welfare workers, and to read, or write, in the big lounge which is attractive and comfortable with easy chairs, pretty curtains, writing desks, book racks, and a piano.

The hostess is Miss Margaret K. Moore, daughter of Mr. and Mrs. Ensley Moore of Jacksonville, Ill., who left her duties as dean of Westminster College, Salt Lake City, to come overseas in April 1919 for work with the American Young Women's Christian Association, and who was sent immediately to Coblenz to be associated with Miss Ruth Woodsmall of Colorado Springs who opened the hostess house. Other members of the present staff of the house are Miss Roberta Robey of Davidson, Okla., who has charge of the finances; Miss Helen M. Price of Stamford, Conn., and Miss Marion E. Millen of New York City, who have charge of the office and billeting; Miss Florence Davenport of Stutgis, South Dakota, who is responsible for the social features; and Miss Amy Erb, who has charge of the dining room, and whose duty is to go several times a week to the U. S. commissary, the railhead and department quartermaster to carry back in the Y. W. C. A. camionette, food supplies, for not an ounce may be bought of the Germans.

Besides the regular meals, tea is served every afternoon, every evening there is music and light refreshments are served, one night a week there is a party for officers and men, and dancing and games are frequent diversions. When the army was moving out in such large numbers and also the welfare workers, it was expected that the hostess house duties would end by the middle of the summer, but the presence of the American forces in Germany, and the need for women workers, made it necessary to continue the hostess house for them, and at present they are all housed in the Trier'scher Hof and an annex, including almost half a hundred Y. M. C. A. girls, an American Library Association girl, another who is working with the Liquidation commission, and two Red Cross girls up in Coblenz directing the drive for members.

With a record of fifty years work for women, the American Young Women's Christian Association since its advent overseas late in 1917 by request of the U. S. army authorities, has provided comfortable living conditions for hundreds, thus enabling them to perform better the ofttimes onerous duties which were theirs in a foreign land. It had at one time in France fifteen hostess houses, and two in Germany. In addition it has brought many advantages to the girls of France, establishing foyers corresponding to the Associations so widely known in the United States.

How Much Tobacco Will My Heart Stand

A Question Vital to Every Man Who Smokes or Chews

IT MAY COST A PRECIOUS LIFE TO FIND OUT BY EXPERIMENT

The heart of every user of tobacco bears a double burden. It does its allotted task and then fights nicotine for supremacy. As long as the heart wins he lives; when it loses he dies, but before the final victory of nicotine you pass through many stages of decline and decay and suffer many pangs. Hearts are like human beings — some are stronger than others, therefore some hearts will stand more tobacco than others, but there is a limit to what any heart can stand. The man who puts this additional strain on his heart a dozen times a day by smoking cigarettes, a pipe or cigars—or chewing tobacco—is taking a madman's chance with health and life to lose and nothing to win but the chance that he may not lose them. He is indulging in a costly habit at the expense of precious health. Ask any doctor anywhere, and he will tell you that using tobacco is injurious and that it is far better to quit the habit than to experiment to find how much tobacco your heart will stand without serious results.

But the thought of quitting is unpleasant to most men—even to those who know that tobacco injures them—and to really quit takes more will power than they have and causes more suffering than they can voluntarily endure. To quit the habit make it easy for yourself by getting Nicotol tablets and taking them as directed. The habit really quits you and its departure is a pleasure equal to its indulgence.

If you want to know how much easier it is to quit the habit with Nicotol than without it, go twenty-four hours without tobacco and note what an effort it costs you, then begin using it as usual and take Nicotol tablets. At the end of a week discontinue smoking or chewing for a day and it is probable you will have no desire to resume. At least your desire will be greatly diminished and another week or two should make it not only possible, but a pleasure, to quit.

Note: Dr. Connor, formerly of ohns Hopkins Hospital, under whose advice Nicotol has often been used said when the statement was shown to him: "I have known Nicotol to conquer the tobacco habit in less than ten days' time and I can therefore recommend it highly." When the doctors statement was shown to one of our leading druggists he said: "Nicotol is truly a wonderful remedy for the tobacco habit, way ahead of anything we have ever sold before. We are authorized by the manufacturers to refund the money to every dissatisfied customer and we would not permit the use of our name unless the remedy possessed unusual merit." Nicotol is sold in this city under an iron-clad money-back guarantee by all up-to-date druggists, including Armstrong's Drug Store. — Adv.

LITERBERRY SCHOOL IS WELL LOCATED

Building and Surroudings Good —Pupils Rank Well With Other Schools of the County.

At a comfortable distance from the noise and din of the city; from smoky factory chimneys, loaded trucks, hurrying thousands, rushing business men, shoppers, sightseers and all that tends to distract from the work in hand the Literberry schoolbouse is located.

There is a fairly good sized playground and it is well shaded with hard wood trees which are a credit to the people who set them out and to the wisdom of the men who located the school building for a good, concrete walk leads to it and it is not far enough away to make the trip to it burdonsome.

There are two departments, Reaugh Jennings, principal, and Miss Margaret E. Chapman in charge of the primaries and both are well devoted to the cause of education. The rooms are well heated and lighted but the equipment is susceptible of improvement. Mr. Jennings said he had understood that some good maps had been ordered but they had not arrived.

The library is scanty and the portrait of George Washington is somewhat lonely as it has no companions. A piano helps out with the music all right. The directors, Messrs. C. A. Beavers, president; J. S. Hitchens, Clerk and G. A. Dunlap, will not be offended at this polite suggestion for the visitor is not around on a faultfinding expedition but kindly to praise what is good and politely call attention to what is needed.

The plain fact is: the utmost the great majority can give their children is an education carried thru the public school and that should be made as good as possible and a few dollars expended judiciously will secure a great deal of needed outfit. Of course each set of officers will do as they see fit and it is all right.

The pupils in this school will rank well with those found elsewhere. They all had good manners and were glad to hear what was said to them. Arcadia still holds the palm for answering questions tho the pupils of Literberry asked rather more at the close. The questions they did ask were intelligent and showed a desire to learn. The visitor was bade welcome and bidden come again which he will be glad to do and see his young friends at Literberry.

The pupils are:

Upper Grade.

Dean Chapman, George Willis, Barbara Cooper, James Dunlap, Burton Olroyd, Alta Crum, Russell Dunlap, Helen Young, Alma Lindsay, Harold Petefish, Donald Chapman, Mildred Underbrink, Earl Petefish, Eleanor Guy, Ada Scribner, Bertha Olroyd, Mae Hixson, Paul Petefish, James Beavers.

Primary Pupils.

Landis Young, Myrtis Sorrill, Samuel Olroyd, Billy Dunlap, Orville Chapman, Orrie Lindsay, Hurstel Robinson, Wiley Scribner, Marjorie Petefish, Isabel Francis, Claudine Ratliff, Marquerite Harmon, Ola Mullens, Eugene Young, Dorothy Roach, Neil Chapman, Dewey Robinson, Wilbur Chapman, Bertha Harmon Lee Alvin Decker, June Olroyd, Lester Lindsay Helen Francis Crum, Ernest Roach.

The CHENEY

Queen Anne Period Model

The cabinet work of The Cheney is exquisite—the work of the finest furniture craftsman in the country. The Queen Anne model illustrated below is 49 inches high, 26 inches wide. Metal parts finished in rich gold, equipped with two reproducers for playing all records. Automatic stop; efficient, silent electric motor.

FUNDAMENTALLY different from ordinary phonographs, The Cheney makes an addition to the home that is of ever increasing pleasure and value. For the longer you own a Cheney the sweeter its tones become, just as an old violin surpasses a new, untried one.

The very acoustic principles of the violin which give it its purity and serenity of tone have been incorporated in The Cheney. Thus, The Cheney becomes more prized the longer you own it, and unlike any other phonograph:

"The Longer You Play It The Sweeter It Grows"

To really appreciate Cheney Tones you should hear them. A piano record, one of the most difficult tests of a phonograph, *sounds* like a piano on The Cheney. Orchestral records have not only all of the vim and zest of the music but the very color and timbre of tones that you would hear if you listened to the orchestra itself.

Vocal records have color, quality, and richness ordinarily lost in a reproduction. Best of all, The Cheney places all the music of the world in your home—it plays all records.

Hear it if you would really appreciate what Cheney inventions have contributed to tone reproduction. Basic patents protect Cheney improvements—they have no imitations.

Regular Models, priced $85 to $365.
Console Art Models, $325 to $600.

NUMEROUS SMALLPOX CASES IN WHITE HALL

Situation Results in Great Demand for Vaccination Certificates—Ward Hull is Authority on Jersey Cattle—Other Items from White Hall.

White Hall, Nov. 27.—A heavy rush for vaccination certificates almost swamped the offices of local physicians Wednesday afternoon and Thursday, following a visit by Dr. Winters and Dr. Girard of the state board of health, who went into the smallpox situation for the purpose of determining the proper course in combatting the disease that was taking on the proportions of an epidemic. A vaccination order several weeks ago caused friction between health and school authorities, resulting in the school being closed for about ten days, while the theatre and other public places were unmolested. The turning loose of the school children seemed to only aggravate the situation, because of inability to check up in an effective way afforded by the schools being in session. During the past week the number of cases increased, while those exposed exceeded the patients more than three times over, and every patient and exposed person was quarantined. The state health authorities who were here Wednesday ordered that no one be allowed in a store or other public place without a vaccination certificate. This order has since overwhelmed the physicians, but there is no disposition to oppose the order, and all citizens are meeting the requirements in a happy frame of mind. The schools will proceed uninterrupted by the order, but the theater management has decided to suspend for the remainder of the week.

Mrs. Minnie Pierce has gone to Shreveport, La., to spend the winter with her son, Frank Pierce and family.

E. S. Ridgeway of Kansas City, spent Thanksgiving here. His wife has been a guest at the Worchester and Roodhouse homes for several days.

Mr. and Mrs. C. C. Stuart are planning to go to Denver.

F. M. Mytinger will leave next week for Los Angeles to spend the winter with his daughter, Mrs. T. H. Lane.

Mrs. A. H. Neutzman arrived home Thursday from a visit of about a month with her parents at Isabel, South Dakota.

George W. Smith of Carbondale, historian of the Southern Illinois Normal University, in a letter approves the idea of some kind of a permanent memorial at the Lovejoy picnic grounds, south of Rockbridge, where a board sign has been doing service for several years. Mr. Smith doubts that the state historical society can be sufficiently interested to promote the scheme, and it will probably be up to private individuals to do whatever is accomplished. Ed North, now of Memphis, Tenn., offers to start the fund with $25 or even more if some other parties wish to open the jackpot with a larger amount that will call for Ed to raise.

Representative Jersey Cattle Herd

Ward Hull, who returned from Oregon a couple of months ago, having purchased the Jackson Marshall farm at the north limits of the city, has developed into an authority on Jersey cattle, having developed a herd while residing in Oregon that were toppers in production. Before going to Oregon he took a complete course in animal husbandry at the University of Illinois. He formerly resided at White Hall, his father being the late Cos Hull. He is a valuable addition to the pure-bred live stock industry, for which this section has gained note and his achievements are a matter of valuable information. Upon request, he makes the following written statement:

"The records of any of my cows (or cows referred to) will be in pounds of fat, also with the estimated butter the same fat would make, computing the butter at 85 per cent. All records are for one year, as that is the period of time authenticated or official records are made. Some records quoted here may seem large to some readers, but they can be verified by writing to the American Jersey Cattle Club, No. 324 West 23rd street, New York City.

The following table gives cows making records while in my herd, but which were sold by me before bringing my herd to Illinois, with the exception of Sheridan Star, still in my herd;

"Mrkviscka's Nancy 299411—7,715.3 pounds milk; 370.8 pounds Fat; 436 pounds estimated butter; Age, 7 years, 7 months at beginning of test.

Oregon Lucy's Pet 377346—6,293.3 pounds milk; 351.8 pounds fat; Estimated 413 pounds butter; Age, 2 years, 2 months at beginning of test.

"Mrkvi, 201962 — 7,299.2 pounds of milk; 396.0 pounds fat; Estimated 466 pounds of butter; Age, 12 years, 2 months, at beginning of test.

"Sheridan Star 284233—12,264.8; 596.7 pounds fat; Estimated 702 pounds of -butter; Age, 7 years, 6 months, at beginning of test.

"Lucy Welch 257473—7,491.4 pounds milk; 439.7 pounds fat; Estimated 517 pounds of butter; Age, 8 years, 2 months at beginning of test.

"I had a small herd in Oregon, and on coming to Illinois brought only ten head, including the herd sire. The females brought to Illinois were from Sheridan Star, Oregon Lucy's Pet and Lucy Welch, also the cow Sheridan Star, besides two cows which I brought down from Canada just before leaving Oregon. One of the cows brought from Canada, St Mawes Koffee 262039, and my herd bull, St. Mawes Koffee Violet Lad 142751, are from the same cow, St. Mawes Koffee Violet 226910, who has a record of 777 pounds fat, equal to 914 pounds butter. St. Mawes Koffee's sire is St. Mawes 72053, the great bull of the breed, having twenty or more daughters in the "Register of Merit." The twenty daughters average 596 pounds of butter fat, equal to over 700 pounds of butter. I also bought a daughter of St. Mawes Koffee by Rosaire Ogla Lad, he also being the sire of my herd sire. Rosarie Ogla Lad has thirty four daughters in the "Register of Merit", several with over 800-pound butterfat records.

"St. Mawes Koffee will be tested next year if nothing happens, along with the rest of my herd, and should give a good account of herself. She has one daughter, Koffee Rosaire 295044, with a record of 448 pounds of fat at two years of age, she being a full sister of Koffee's March Queen, which I have. Koffee Rosaire in turn has a daughter Poppy's Koffee Rosaire 333970, by Poppy's St. Mawes, with a record of 653 pounds of fat at three years old, and is making a much larger record for R. I. Tanner of Lumas, Washington. I have a greater average of St. Mawes blood than any other herd of Jerseys aside from Ed Cary's herd at Carlton, Oregon, which is the greatest herd of its size in the United States."

REMEMBER YOUR CUSTOMERS

and friends at Christmas by presenting them a neat Advertising Calendar.

The distribution of Calendars is good advertising. It places in the homes and business houses an article that is referred to every day in the year. And the prettier the Calendar the more conspicuous a place it will be given.

We are agents for the U. O. Colson Co. Calenders and Advertising Novelties. It is the best selected line on the market, containing subjects applicable to each line of business. A phone call will bring us to your place of business with samples.

A patriotic parade for American-Made Toys

HERE is Toyland with every conceivable kind of toy to amuse and educate.

But that is not all. For the toys here are AMERICAN-MADE. Minds that understand the spirit of American boys and girls created the toys we show. American workers were made happy in the thought that they would help build a patriotic spirit in the growing generation.

America makes the best toys. That is why American-Made Toys lead in our displays. As patriotic American fathers and mothers, see that your children's patriotic spirit is built up—made a big part of their lives, by giving them only 100 per cent American Toys and telling them of that fact.

Buy American-Made Toys

We have them for sale here. We are proud of it because we are protecting America's industry by doing so. We are proud, too, because it means the best toys—the best made—the greatest variety—are here—now, ready for you to come and choose from.

MAVERICKS

It seems to be the open season on Americans in Mexico.

:::

Many citizens will miss their annual introduction to Tom and Jerry and Mr. Egg Nog at Christmas time.

:::

Dry in ElDara ... ...

The town well has caved in, the windmill and pump has stopped, the tank is dry and stock are suffering for water. It is up to the village officers to fix up things a little, yet they seem to be putting it off.—ElDara Correspondent in Barry Adage.

:::

It is said Clemenceau will come to this country to speak in favor of the league of nations. Our advice to Mr. Clemenceau would be to stay at home. The people of this country are able to settle the treaty question without any help from Europe.

:::

Those who fail to hear Frank Waller Allen at Congregational church this evening will miss one of the best speakers in the country. We have heard Mr. Allen on several occasions and he has personality plus and then some. He is a former newspaper writer and the author of several books. He has seen life in all its phases and he will no doubt have a message that is worth while.

:::

The Springfield high school team surprised itself and its supporters Thanksgiving day by playing East St. Louis to a tie, 14 to 14. It had been so long since Springfield had crossed the goal of its opponents that the players had to pinch themselves to see whether or not it was a dream.

:::

To show that the peace commission from the United States framed an excellent treaty the powers that be at Paris, on Friday awarded this country two per cent of the tonnage of German vessels held by the allies England only took seventy per cent which shows that England is looking out for herself at all times.

:::

Fried chicken tasted as good on Thanksgiving as turkey and was much cheaper.

:::

It looks like Mexico will have to be shown.

:::

But it may have to wait until there comes a new administration. The present administration is engaged in wasting good paper writing notes to the Mexican government.

:::

Judging from the matrimonial record the past few days the high cost of living holds no terrors to some young people.

:::

What is the use of fussing about the league of nations when we have the steel strike, the coal strike, a threatened strike of the railroad workers, the Mexican question, and the prospect of getting a Christmas present that will blow you higher than Pike's Peak.

:::

Gee, it gives us the headache to contemplate it.

SPANISH FLU BREAKS OUT IN YOUNGSTOWN

Youngstown, O.—Spanish influenza has broken out among workmen living in steel mills here on account of the steel strike, according to announcement by Youngstown hospital officials today, who said that six cases had been taken to the hospital from the Ohio works of the Carnegie Steel Company, and three from the Brier Hill Steel Company.

Doctors are agreed that precautionary measures are more necessary than ever before. The secret of avoiding influenza is to keep the germs from lodging and developing in the respiratiory organs—the mouth, nose and throat. The utmost care should be taken not to catch cold, for colds weaken the resistance to influenza germs. No one should be allowed to breathe in your face because the germs are often transmitted in this manner. Finally a good germicide should be used frequently, such as Turpo, which is a most effective germicide.

Snuff a little Turpo up the nostrils several times a day, and the flu germs will have little chance of getting a lodging and breeding place. Many physicians and hospitals use and recommend Turpo.

Turpo is an effective germicide, combining the old-fashioned remedies of turpentine, camphor and menthol in a pure mineral base. The ingredients have long been recognized as effective germicides, as well as having really wonderful qualities in relieving colds and congestions. As a preventive for flu, Turpo has been widely used and recommended. Last season the druggists could not supply the demand for Turpo, so it is important to buy a thirty-cent jar of Turpo of your druggist now while he has a supply on hand, and use as directed.

If in spite of all precautions, Spanish influenza develops, go to bed and summon a physician. Influenza is a serious malady, and requires the best medical attention.

Leaflets on Prevention and Treatment of Influenza and Pneumonia can be obtained at your drug store.—(adv.)

ILLINOIS COLLEGE NOTES

The students are manifesting great interest in the Endowment Campaign of the College. Henry L. Best of the senior class has been appointed as the student representative on the National Endowment Committee and under his direction the student body is organizing for its part in the campaign. The student body invariably made a fine record in every war drive and they expect to set a good example to alumni and friends by their efforts in the present campaign for the enlargement of the College. A general committee will be appointed with representatives from each of the classes.

The following committee has been appointed to represent the alumnae of the Athenaeum in the Endowment Campaign: Lucinda G. Kirby, chairman; Clara King Moore, secretary; May Dummer, Clara Adams Lippincott, and S. Maria Fairbank.

The trustees of the College will hold their regular semi-annual meeting on Thursday morning, December 4 in the new Museum room in Whipple Hall. They will lunch with the boys at the club house Thursday noon.

Rex Gary, well known locally as a great quarter-back on the Illinois College football team and also for his record in the army, has a position as athletic coach at Wheaton College, Illinois.

Among former students who attended the recent Gridiron Hop were the following: Lucille J. Baker, '21, Bernice Wheeler, '19, Ray Wilson, '20, Ray Riefler, '20. Miss Bernice Wheeler, 19, also spoke at the student association meeting Wednesday morning. Hobart V. Carmichael, '19 spent part of the Thanksgiving recess in town.

The girls of the Junior class entertained the Y. W. C. A., Monday afternoon.

The Reverend Thomas W. Smith, '87, is expected in Jacksonville on Sunday or Monday. Dr. Smith has been engaged in overseas service in the Y. M. C. A., and has more recently been acting as the representative in the Presbyterian New Era Movement in the Northwest. He will speak to the students at the chapel exercises at 11 o'clock Monday morning. Friends will be welcome at the exercises.

Henry Ricks has gone to Chicago where he will resume the occupation he held befcre the war.

Miss Edna Crouse was a city shopper from Murrayville yesterday.

R. R. CONDUCTOR FEELS FINE, NOW

Captain Shackley Says Tanlac Was Worth Weight in Gold to Him.

Most everybody who travels over the Chicago, Milwaukee & St. Paul railroad between Milwaukee and LaCrosse knows Captain LeRoy Shackley, the popular conductor on passenger trains No. 6 and No. 101, making these two points.

Captain Shackley has been with the Chicago, Milwaukee & St. Paul for the past thirty seven years. He has been a passenger conductor for thirty years and most of this time on his present run. For the past eight or nine years Captain Shackley has lived at 177 14th St., Milwaukee, but he has also resided in Tomah and LaCrosse and numbers his friends by his acquaintance.

Captain Shackley has suffered much annoyance during the past five or six years on account of a disorered condition of his stomach and kidneys and not being able to find relief through the ordinary treatment, he decided to resort to the Master Medicine, Tanlac. So a few weeks ago he purchased a bottle, which helped him so much that he bought another, then another and so on. But let Captain Sackley tell his own story, in his own words. Here is his statement:

"Well, for a fact, Tanlac has done me more good than everything else I have ever taken," said Captain Shackley, while in the Central Drug Store at Milwaukee, "and I have been trying for the past five or six years to find something to put my stomach and kidneys in order. It seemed, however, that the more medicine I took the worse off I got and at the time I began taking Tanlac I was in a mighty bad fix. I could not eat anything without bloating all up with sour gas and suffering severe pains. I had that lump like feeling, familiar to so many people, in the pit of my stomach, and I would often get so dizzy and blind that I could not walk straight. Usually after eating my heart would palpitate something awful and I would get very short of breath and feel like I was smothering. The small of my back pained me so I could hardly stoop over and straighten up, and it was an effort to me to get out of my chair. These pains would often strike me at night and between my nervousness and misery I got very little rest. I could never eat anything in the mornings and that tired, no account feeling was with me all the time.

"About the wisest decision I ever made was when I made up my mind to try Tanlac. I now fully agree with others who have said it's worth its weight in gold. Meal times comes too slow for me now and I can eat just anything I want without a particle of trouble afterwards, and I have already gained several pounds in weight. I sleep just fine, get up mornings ready for a hearty breakfast and feeling almost as good as when I first got my run, thirty years ago. The pains have disappeared from my back, the headaches and dizzy spells are gone, and my stomach really feels like a new one. In fact I am feeling like a new man and I want everybody to know that Tanlac is what brought about the change."

Tanlac is sold in Jacksonville by Coover — Shreve. in Meredosia by Mr. R. B. Field, in Murrayville by M. E. Gilbert, in Waverly by Wyle Drug Co., in Woodstock by The Hoy Pharmacy, in Chapin by Jno. Onken & Bro., and in Alexander by Frank J. Kaiser.—Adv.

COLLEGE OF MUSIC

Miss Suzanne Rinehart played a violin solo at the Union services Thanksgiving morning.

Miss Gladys Sargent went to St. Louis this week to sing the Bach-Gaunod Ave Maria at the High Mass of the Reis-Reiss wedding at St. Boniface's church. While there Miss Sargent also sang at the benediction service at St. Anthony's church on Sunday.

Miss Ila Allen and Winnifred Sale, former students of the College of Music, returned for a visit recently.

The College of Music regrets the departure of Miss Deborah Barbre, whose family is moving to Peoria. Miss Deborah has been a faithful student for several years.

Miss Clara Moore will give her recital Thursday evening, December 4th at 8:15 o'clock in Music Hall. The public is cordially invited.

The following program was presented at the children's recital Friday afternoon:

1 Piano, Good Night Pixie Song—Wanda Bergner.

2 Piano, The Merry Sprite, Hudson—Helen Richards.

3 Piano, March of Santa Claus Guarda, Krogman—Barbara Kennedy.

Murphysboro, —"When I began taking Dr. Pierce's medicines I was just a nervous wreck, I could hardly be on my feet. While not able to work I tried to keep up. I was advised to use Dr. Pierce's Favorite Prescription and Golden Medical Discovery and took both. I began to get better and when the treatment was finished I was much stronger and better able to work. The remedies were fine; easy to take and fully satisfactory."—Mrs. Wm. Blackburn, 627 No. 14th St.

Elgin, Ill.:—"When I reached middle life I was miserable with 'heat flashes' dizzy spells, bearing-down pains, nervousness, sick-headaches and sleeplessness. I remembered that when my mother was going through the same period of life she depended upon Dr. Pierce's Favorite Prescription and the 'Pleasant Pellets.' She came through the change so well that I took these two remedies and my health improved at once. All of the annoying and distressing conditions that I had suffered with disappeared, and I came through the 'change of life' just as strong and well as my mother had years ago. I can highly recommend these good medicines to all women at the critical period."—Mrs. Annie Vandeburg, 256 Franklin St.

FALL'S PRE-EMINENT EVENT!

—Saves Three Ways

You save when you buy it

Calumet Baking Powder is sold at a moderate price — a *just* price.

It costs much less than the high priced brands. And but very little more than the "big can" kinds that can never be depended on. When you pay more than is asked for Calumet, you are squandering money. No matter how much you give, you *can't* get a better leavener.

When you buy cheap powders, you *do* save a few pennies on the cost, but poor baking powder is the most expensive in the long run because it spoils and wastes many dollars worth of baking ingredients.

The moderate cost of Calumet, combined with the highest merit, establishes the greatest of baking powder buying economy.

Calumet has been on the market for 30 years. Long past the experimental stage. It is used by more housewives, more chefs and Domestic Scientists because experience has proved it productive of best results at the most economical cost.

Made in the world's largest, finest, most sanitary Baking Powder factory.

You save when you use it

Calumet has more than the ordinary leavening strength—therefore you use less.

It is all Baking Powder. It begins to raise bakings the instant they are put into the oven. You don't have to keep peeping to see if the bakings are all right. You know they are.

Calumet is sure. It never fails. Cakes, biscuits, every baking in which Calumet is used, comes from the oven just right—light, tender, perfectly raised and thoroughly wholesome.

Look Out For This

When you buy a pound can of Calumet you get a full pound — 16 ounces — no short weights. Some baking powders are now being put on the market in 12 ounce cans instead of pound cans. Be sure you get a pound when you want it. Remember — Calumet is not made by the Trust, not sold at Trust prices.

Valuable 72-Page Cook Book

Handsomely illustrated in colors. Most complete and dependable recipe book ever published. Hundreds of helps in reducing household expense. Scores of selected recipes — new and better ways of making better foods. Send slip found in can of Calumet and three 2-cent stamps to help cover cost of packing and mailing.

You save materials it is used with

The unfailing strength of Calumet guarantees perfect results—every bake day.

There are no failures — no waste. The eggs, butter, flour, sugar and other baking ingredients that cost you so much money these days are always converted into the most delicious and economical bakings.

Calumet bakings are never thrown away. Not a slice of cake, a crumb of biscuit nor anything else baked with Calumet ever spoils or dries out. They are too good to last — and are good to the last as they stay moist, fresh and tender.

Calumet is one of the greatest savers of food—one of the most effective means of keeping down the high cost of foods — without sacrificing food quality.

Try it. Today. Your grocer will refund purchase price, if you are not absolutely convinced of the fact that Calumet is the best leavener you ever used at any price — the most economical.

WHITE HALL UNDER STRICT QUARANTINE

Small Pox Epidemic Causes Stringent Regulations — The Churches Will Hold No Services Sunday.

White Hall, Nov. 29.—Compulsory vaccination and the strictest regulations governing the admission of only those holding a proper certificate to any local place of business has resulted in White Hall being under practically complete quarantine until the small pox situation improves.

There are now sixty cases quarantined about the city and a still larger number who have been quarantined because of exposure to the disease. The epidemic seems to have increased during a shut-down of the schools for about ten days, and when the schools reopened a week ago a larger number of cases were reported.

The schools will remain in operation under strict vaccination requirements, and railroad stations, hotels and all stores are required to admit only those who can produce certificates of successful vaccination. All the churches have agreed among themselves to hold no services tomorrow. There has been no moving picture performance since Wednesday night.

Traveling saiesmen and passengers transferring at this point have been put to great inconvenience because of the health orders, but there are an increasing number of commercial men who carry vaccination certificates because of the evident extent of the epidemic in various parts of the country and in Canada.

HOME MADE RECIPE CATARRH AND COLDS

Nonexpensive—Cut This Out.

Thousands are making this beneficial remedy at home and anyone who has catarrh or a cold can do the same.

Ask your druggist for three quarters of an ounce of Mentholized Arcine and pour it into a pint bottle, then fill the bottle with water that has been boiled.

Gargle the throat as directed and snuff or spray the liquid into the nostrils twice daily. It's a simple way to get rid of cold and catarrh and keeps the nasal passage and throat so clean and healthy that germs of flu or any other germs will have a hard time gaining a foothold.

WAS NERVOUS AND RUN DOWN

RESTORED TO NORMAL HEALTH BY BIO-FEREN

"I feel I owe you people a world of gratitude for the benefit I have received in using your wonderful remedy—Bio-feren Tablets, which have completely restored me to normal conditions," says Joseph E. Webb of Muncie, Indiana.

Bio-feren is without doubt the grandest and quickest remedy for nervous, run down, weak, anemic men and women ever offered direct through the druggists and is not at all expensive.

Take two after each meal and one at bed time, and after seven days take one after each meal and one at bed time until the supply is exhausted.

Then if you feel that any claim made in this special notice is untrue—if you are not in better health—if you do not feel ambitious, more vigorous and keen minded, yes, twice as much as you did before, the druggist who sold you the tablets will gladly hand you back just what you paid for them.

All druggists in this city and vicinity have a supply on hand, or can easily get it for you.

Seven a day for seven days—Wonderful results.

Dance Music on the Gulbransen assures a Successful Party

© 1919, G.-D. Co.

You will need to do some entertaining this fall and winter. Everybody wants to dance. Consider the help you will get from a Gulbransen Player-Piano.

You can always depend upon the Gulbransen for good dance music—the latest jazz songs, the old favorites. It offers a larger repertoire than any orchestra.

Its full piano tone is ample and inspiring. It makes you independent of hired talent, saves you money, keeps your parties delightfully informal.

And everybody can play the Gulbransen with all the zip and swing you could ask. It is quite the thing to take a turn at it while resting from dancing. The Gulbransen is so Easy to Play it will not tire you.

In fact, a tiny baby once crept up to the Gulbransen and, so gently do the pedals operate, the baby played it just as shown in the picture below. That is where they got the idea for their trade mark.

But the Gulbransen is not only easy to pedal. It is easy to play well, expressively, sympathetically, brilliantly—as suits the occasion. It gives you a new idea of player-pianos.

Go to the Gulbransen dealer and try a Gulbransen. You will find him by the Baby at the Pedals in his window.

Try some of these popular dance songs. The Gulbransen dealer has them. They sound particularly well on the Gulbransen. You ought to know them.

114 EGGS A DAY NOW INSTEAD OF 25 A DAY

That Means About $105 Extra Income Per Month for Mrs. Ropp.

"I have 200 hens, including late pullets not old enough to lay, and had been getting 25 to 30 eggs a day. Then I tried Don Sung in the feed, and am now getting 107 to 114 eggs a day."—Mrs. Essie B. Ropp, R. R. 2, Littles, Ind.

Mrs. Ropp got this increase of 7 dozen a day in the middle of winter. At 50 cents a dozen, 30 days a month, this makes $105 extra income a month. The Don Sung for her 200 hens cost her about $2.50 per month. You can see how well it paid her, and we'll guarantee it will pay you.

Give your hens Don Sung and watch results for one month. If you don't find that it pays for itself and pays you a good profit besides, tell us and your money will be promptly refunded.

Don Sung (Chinese for egg-laying) works directly on the egg-laying organs, and is also a splendid tonic. It is easily given in the feed, improves the hen's health, makes her stronger and more active in any weather, and starts her laying.

Try Don Sung for 30 days and if it doesn't get you the eggs, no matter how cold or wet the weather, your money will be refunded by return mail. Get Don Sung from your druggist or poultry remedy dealer or send 50 cents for a package by mail prepaid. Burrell-Dugger Co., 284 Columbia Bldg., Indianapolis, Ind.

LIQUIDATION ROUTS BULLS IN CORN MARKET

Corn Prices Turn Somersault in Final Hour of Trading.

Chicago, Nov. 29.—Liquidation on the part of unlicensed holders of December contracts routed the bulls in the corn market today. The close was weak, ⅜¢ to 2¢ net lower, with December $1.35¼ to $1.36¼ and May $1.30¾ to $1.31. Oats finished ⅜ @ ½¢ to 1½¢ down, and provisions varying from 90¢ decline to an advance of 50¢

Corn prices turned a complete somersault in the last hour. Previously the market had been jumping upward from the outset as a result largely of rain and snow that threatened serious delay to the crop movement. Besides, higher quotations on hogs together with uneasiness over the coal strike and in regard to the Mexican situation tended also to put the bears at a disadvantage. Purchasing, however, was apparently much overdone, for when holders who had no government license began to unload as the day approached an end the market underwent a sudden reversal of form. In consequence values tumbled headlong and thereafter showed but little power to rally.

In oats as in corn only licensed dealers could have December trades open after today. The effect therefore was decided weakness in oats too at the last.

Provisions were depressed from the beginning on account of slackness in demand for lard.

THE STOCK MARKET IS REPORTED HEAVY

Weakness in First Half of Session Result of Lower Range of Prices Established By Leaders.

New York, Nov. 29.—The stock market was heavy verging upon weakness in the first half of today's short session, mainly as a result of the materially lower range of prices established by several of the highly speculative leaders. Early declines of five to fifteen points in General Motors, Crucible Steel and American Tobacco with 1 to 3 point reactions elsewhere were not conducive to bullish enthusiasm.

Pressure was plainly of a professional origin, however, some stocks making full recovery at the first signs of support while others made partial response. Sales amounted to 800,000 shares.

Investment rails were among the first to rebound, their improvement being accompanied by the publication of numerous statements of earnings for October. The clearing house statement disclosed only a small contraction of actual loans—slightly more than $8,000,000—but excess reserves increased by $34,000,000 lifting total actual reserves to $71,333,000.

There was further lively trading in liberty and victory bonds at lower levels, but rallies marked the close in those issues as in the stock list. Total sales (par value) aggregated $13,250,000. Old U. S. Bonds were unchanged on call during the week.

ILLINOIS WOMAN'S COLLEGE NOTES

The freshmen entertained the sophomores Saturday night in the gymnasium at a "backward party." The guests came with their gym suits on backwards, entered at the back door and continued to walk backwards. Refreshments were served in order from toothpicks and water to ice cream.

The Y. W. C. A. service Sunday afternoon was led by Miss Neville. The very interesting talk was concerned with the National idea of Thanksgiving.

The results of the hockey game Saturday afternoon still show a decided victory for the Seniors over the Faculty. The score of 22-6 should be a warning to the Faculty to stand on their mettle.

The Thanksgiving home-coming at the college was as usual a pleasant, delightful one. Dinner was served at one o'clock. The Freshmen had shown remarkable artistic ability in decorating the dining room with ferns, small yellow chrysanthemums and candles and a fern-surrounded fountain bubbled in the middle of the room. After a well served banquet came the after-dinner speeches. Dr. Harker was toastmaster, Dr. Pletcher gave a toast for "Our Country" which was characterized by the speaker's usual optimistic view. Miss Austin toasted "Our Friends, the old and the New," in which she mentioned the many tried and true friends of the college. Miss Powell followed with a toast to "Our College," in which she gave a reading from Van Dyke's King's Highway. The glad time closed with the singing of the college song.

In accordance with their custom of giving the evening's entertainment on Thanksgiving evening, the Faculty presented the three-act play "Cranford." The quaint atmosphere of the little English town of Cranford was faithfully kept. It seemed as if a bevy of dear little old fashioned ladies had been transplanted from the pages of a book to give the audience at delightful "At Home" for a few short moments. All too soon the lights flashed on making us realize that the curtain had fallen upon a lovely dream.

Several interesting and valuable additions have come to our library in the form of gifts from friends of the college. Mr. F. E. Compton, a Chicago publisher and brother to Miss Compton, the head of the English Department at the college, has presented us with a fine volume set of the Student's Reference Work.

Dr. Frank Crane, a native of the state of Illinois and a friend of Dr. Harker's who writes for many of the leading newspapers of the country has supplied us with a new ten volume edition of his Four Minute Essays.

The college library has received very recently a gift which brings joy to the heart of every lover of books. Mrs. Alice McElroy Griffith has presented a set of fifteen books most exquisitely bound, the Norrean Anglo-Saxon Classics, which contain the masterpieces of Norse literature, the Arthurian tales, North German Sagas, and many others, translated into modern English from the original, wherever possible, and containing much material that has never been published before. On the first page is the note "Of the Royal Edition," there are 450 complete sets made for the world, of which this is copy number 245. Those interested in the work in literature feel that the value of this set of books can not be estimated.

President George M. Potter, of Shurtleff College, Alton, Illinois, was Dr. Harker's guest Monday.

Among those who spent Thanksgiving day at the college were Mr. James Kirby and daughter, Miss Helen Kirby of Petersburg; Mrs. Scott McEwan of Sheldon; Miss Grace Madden of Auburn; Mrs. J. W. Remley of Waynetown, Indiana; Miss Virginia Mills of Oak Park; and the following alumnae and former students: Miss Lois Coultas of Winchester; Miss Joyce Webb of Ambia, Indiana; Miss Helen Tombaugh of Burlington, Iowa; Miss Adelia Roberts of Virden; Miss Lora Whitehead of Easton; Miss Harriet Munson of Rushville; Miss Audra Miller of Lebanon, Indiana; Miss Miriam Anderson of Kirksville, Missouri; Miss Cordelia Randolph of Mansfield, and Miss Winifred Sale of Watseka.

Miss Lucile Root of Pontiac and Miss Ruby Baxter of east of Jacksonville are spending the week end at the college.

Those who were visiting girls at the college the week-end before Thanksgiving are, Miss Grace Lee of Hoopeston; Mrs. M. F. Blaisdell of Pontiac; Mrs. David Nelson of Barry, Miss Ruth Deweese of west of Jacksonville; Mrs. Thomas Watts of Pontiac, and Miss Edna Baldwin, a former student, of White Hall.

DOUBLE BEAUTY OF YOUR HAIR

"Danderine" creates mass of thick, gleamy waves

In a few moments you can transform your plain, dull, flat hair. You can have it abundant soft, glossy and full of life. Just get at any drug or toilet counter a small bottle of "Danderine" for a few cents. Then moisten a soft cloth with the "Danderine" and draw this through your hair, taking one small strand at a time. Instantly, yes, immediately, you have doubled the beauty of your hair. It will be a mass, so soft, lustrous and so easy to do up. All dust, dirt and excessive oil is removed.

Let Danderine put more life, color, vigor, and brightness in your hair. This stimulating tonic wil freshen your scalp, check dandruff and falling hair, and help your hair to grow long, thick, strong and beautiful.

PLEASANT GROVE

Quite a number from this neighborhood attended the Queen Esther entertainment and box social at Carlson's Hall, Murrayville, Thursday evening. They report a good time and proceeds amounting to $80.00.

Misses Minnie and Anna Clayton spent Thanksgiving afternoon with Mrs. Lurten Tucker.

Ernest Long entertained a number of relatives at a Thanksgiving dinner Thursday. Those present were: Mr. and Mrs. Wm. Long of Manchester; Frank Short and family, Perry Simmons and family, and Clifton Fanning.

Mr. and Mrs. Reaugh Jennings are spending the Thanksgiving holidays with his parents, Mr. and Mrs. E. M. Jennings.

Miss Stella Claridy and Rev. Fred Herron of Manchester were united in marriage Thursday at twelve o'clock at the home of the groom's sister, Mrs. Cooper, west of Murrayville, by Rev. Roy March. Both young people are highly respected by a large circle of friends, who unite in wishing them a very happy married life. They will reside in Manchester.

John Hull and family spent Thursday with Mrs. Hull's parents, Mr. and Mrs George Atkinson.

Quite a number from here attended the sale of Jonas Wilson of Nortonville Wednesday.

Lurlen Tucker is having sale bills printed for his sale to be held Dec. 17.

Mr. and Mrs. Walter Oddy of Alexander spent Thanksgiving with the latter's parents, Mr. and Mrs. Thomas Mason.

Mrs. Ella Crouse, Eleanor and Ralph Crouse, Mrs. Ethel Gay and children spent Thursday with D. J. Crouse and family.

Y. W. C. A. Illinois college Xmas bazaar, Academy hall all day Saturday, Dec. 6th.

SERGEANT YORK'S LECTURE CANCELLED

Yesterday morning about ten o'clock F. J. Heinl as secretary of the Rotary Club was advised by telephone that on account of the critical illness of Mrs. York who was in her husband's traveling party, the sergeant was compelled to return with his wife from St. Louis where he lectured on Friday evening, to Tennessee. The York Foundation promises that Sergt. York will come here later.

Every effort was made by the Rotary Club to get out the word that Sergt. York could not appear.

All tickets sold for the lecture will be redeemed by those who sold them. Holders of tickets are requested to present their tickets at once to the person from whom they bought them and get their money back.

One hundred and twenty-one of the bonds are of the denomination of $1000 each and mature $6000 beginning December 1st, 1920 through 1939. These bonds are issued to pay valid indebtedness of the City of Jacksonville. All bidders will be required to accompany their bids with a certified check of $2000, as an evidence of the good faith of the bidder, and that he will take up and pay for the bonds if the sale is awarded to him. Failure to do so, said sum of money shall be forfeited to the city as liquidated damages. The bonds will be ready for delivery to the purchaser immediately upon acceptance of the bid and unless the bonds are taken up and paid for within five days after notice of award of sale, the check aforesaid will be forfeited to the city. The approving opinion of Charles and Rutherford, Attorneys of the City of St. Louis, will be furnished to the purchaser of the bonds. The City Council reserves the right to reject any and all bids.

(Signed),
E. E. CRABTREE, Mayor.
R. L. PYATT, City Clerk.
